ONCE A YEAR

Once in a year in our hand is laid,
An uncut book by the Master made;
Unread are the pages written there,
Twelve new chapters clean and fair.
Once a year, when the glad birds ring,
And the old Year in a baby King,
Fresh in our hands with the title clear
And the leaves uncut is an Unlaid Year.
An Unlaid Year! Ah, stained with tears
Is the well thumbed volume of other years!
Soiled by blunders and black regret
Are the pages we read with our eyelids wet.
Close in our hearts as the leaves are turned
Is the record of passions that flared and burned,
Now laid away with our doubt and fear,
As we open the book of an Unlaid Year!
Once in a year in our hand is laid,
An uncut book by the Master made;
It is ours to read with eyes that cling
To flowers that blossom and birds that sing.
Light and shadow, and hope and pain
Is the record of passions that flared and burned,
Dreams that beckon are ghosts that leer,
Look out from our book of an Unlaid Year!

Date "Y" Annual Meeting Is Set For Last Friday In Jan.

The regular monthly meeting of the village council was held on Monday evening last with all members present and Revue Mackie presiding.

The minutes of the previous meeting and the monthly financial statement were read and adopted.

A copy of the new government regulations for relief was read setting forth the amounts which could be paid and the council is required to pass a resolution to abide by these regulations.

Mrs. Deen made a personal application for direct relief. The board having arranged to go to Edmonton on other council business the first of next week, informed her that her request will be brought before the Department.

A communication from P. A. Straub re protection to milk vendors who had had their cows government tested was brought forward with a suggestion that a license be imposed. Dr. Warren, our health officer, was present and advised that such steps be taken. It was decided to bring this matter up at the annual meeting and then take definite steps. Notification is hereby so given to all interested.

The date of the annual meeting was announced as Friday, January 31st. Nomination of a councillor for 1936 will be held the first Monday in February.

B. C. Andrews was appointed returning officer. Meeting adjourned.

RIPLEY NEWS

Miss Esther Owen of Calgary spent Christmas with her parents here.

Miss Patricia Miburn R.N. of Edmonton is visiting with Mr. and Mrs. Robt. Richter.

Mrs. B. W. Bart, Eugene and Gladys Rogers were Stettin visitors on Sunday.

Miss Ruth Watters of Mirror spent the Christmas holidays learning to cook at the home of her sister, Mrs. Ward Barrett.

Miss Mae Estelle also of Mirror spent the latter part of her holidays visiting her cousins, Mr. & Mrs. Ward Barrett.

A man was at the downtown gas counter making a purchase. "You see," he said, "I'm buying this for my wife." "A surprise eh?" "I say so. She's expecting a car."

Adding of school books, musical books and village books is now in order and several magazines and election of officers with some more.

Important!

Watch for posters announcing the date of the FREE Lecture on "Art" Lecture to be given on under the auspices of the Alix W. I.

TEES FINDINGS.

Mr. E. E. Best spent Christmas in Edmonton with his daughter Mrs. Dr. D. R. Lethbridge and family.

Mrs. Dick Bakeman and Dan Daniels journeyed to Edmonton today with Miss Lethbridge.

Mr. and Mrs. E. E. Best are making a visit with their grand daughter and grandson Mrs. Douglas and Miss Barbara Lethbridge during the holidays.

Miss Audrey Sweet of Alix was visiting here in town with Mr. and Mrs. H. L. Cook and family.

Mr. Jim Cook is visiting at Poudre at present.

The young people held a large well party here last night for the Best Cook who is returning to Calgary where he is studying the arts and crafts under the tutelage of Mr. Wm. F. Smith.

Mrs. F. S. Heath and Mrs. O. M. Conner are held on visit at Mankat at present.

Mr. E. D. McLaughlin was his brother working and is glad to be home.

Miss Rose Dixon of Edmonton was a guest visiting during the holidays, and Ripley for particular.

The dance in the hall here last Friday evening was well attended and those present report a very enjoyable time.

There is to be a shower in the hall Friday evening for the newlyweds Mr. and Mrs. Cyril Goldschmidt (nee Miss Linda Johnson).

An overwhelming majority of the people would be pleased to have a meeting on a subject of common interest has been held in the hall.

Mrs. E. B. Fry and son, Cyril Goldschmidt and Linda Johnson, journeyed to Edmonton in Jan. where Cyril and Linda were happily married. The bride and groom spent a few days honeymooning in the city and have now returned and received congratulations and best wishes from all their friends who wish them a happy and prosperous marriage on the way of life.

Mrs. J. M. Mew and children left on Tuesday by train for Gray Lake to visit relatives and friends for two or three weeks, depending on weather conditions.

Tom Donald (Cousin Gray) will put a new stove and gas and water in the new house, which for the date.

Mrs. S. L. Loe of Ochoa is a guest of Mrs. H. L. G. Wark.

McDonald - Becombe

A wedding of great interest was celebrated in the Presbyterian Church at Red Deer, on Wednesday, January 9th, at 3 o'clock, by the Rev. Hugh Jack, when Patricia Lee, daughter of Mr. and Mrs. Becombe of Ponoka, was united in marriage to Kevin, eldest son of Mr. and Mrs. A. McDonald of Alix.

The bride, who looked lovely in a white chapel dress, was attended by Miss Catherine McDonald, sister of the groom, and Mr. Alfred Becombe, brother of the bride, supported the groom.

After the ceremony a very enjoyable dinner was served to about twenty guests at the home of Mr. and Mrs. A. McDonald. Later Mr. and Mrs. Kevin McDonald left for their home on Mt. Jack near the farm where they have the best spurs from all their friends for their future happiness.

Mr. and Mrs. Kevin McDonald were accompanied by some of their friends to the wedding, on January 9th. Did we have the news failed to alarm the newlyweds, as they arrived in the city, then we expect a very merry evening.

In honor of Mr. and Mrs. Kevin McDonald a supper was held at the home of Mr. and Mrs. Art Kanton on Thursday evening January 9th. A large number of guests were present. Mr. and Mrs. McDonald were the recipients of many lovely and useful gifts, which showed the esteem in which they are held.

A regular meeting of the Council of the Municipal District of Lacombe No. 200 was held in the Municipal office, Alix on Saturday January 11th.

Meeting came to order at 1:30 p.m. all members present except W. H. Smith and Steve Dittie in the chair.

The minutes of the meeting of Dec. 16th were read and approved on motion of Carter.

Mr. Dittie appeared before the Council with a proposal to purchase the S. W. of Sec. 4, 1st 25 4. Moved by Carter that this land be leased and optioned to Mr. Dittie for the purpose of the Department of Municipal Affairs on the terms recommended by the Committee. W. H. Smith, seconded a price of \$1000, term 5000 cash.

The balance in of pay payments with 64 per cent interest. The corporation agrees to make from 15 to 20 acres during the next two years. - Carried.

Commissioner Carter reported that he had arranged with Mr. E. D. McDonald of Trail to purchase and remove the 1000 acre from the S. W. of 41 25 4.

Moved by Carter and carried that C. W. F. Macdonald of Hinton be engaged to value the S. W. of 41 25 4.

Moved by Sherburne that a road be cut through the suggestion arrangement with road section be granted and enclosed with concrete sidewalks. - Carried.

Moved by Smith and carried that J. H. Macdonald be notified to remove all hay and granaries from the S. W. of 41 25 4 before Jan. 4 next. - Carried.

The application of J. H. Smith of Trail for a license to use the premises located on the 17th March 3, 1930, was approved on

R. B. LAW

Mr. Law, as president and general manager of United Grain Growers Limited, is to take up his residence in Alberta within a few months.

The Board of Directors of the Company has decided to establish the office of the President and General Manager at its Calgary office. That office has been in Winnipeg since 1917, when the Alberta Farmers Co-operative Elevator Co. amalgamated with the Grain Growers' Co. to form United Grain Growers Limited.

Although the company operates extensively in all three prairie provinces, the extent of its business is much larger in Alberta than in either Saskatchewan or Manitoba. That fact together with the importance of the company's business at Vancouver makes Calgary a suitable location for the office of the President and General Manager.

Motion of Carter.

Moved by Sherburne that no road be laid by the Municipality in 1930 - Carried with Carter dissenting.

Moved by Dittie and carried that Steve Brown be allowed to take wood from the N. E. 24 25 4 at the rate of 85 per cord. The monthly financial statement was read and adopted by motion of Sherburne.

E. H. Smith was elected Returning Officer.

Deputy Returning Officers appointed were Mr. S. D. H. Smith; Mr. S. T. Clanton; Mr. G. Fry and Mr. B. Scott. Meeting adjourned.

Mrs. C. Woulgar, who has been on the sick list for some months, was taken to the University Hospital in Edmonton on Thursday for a ten day treatment.

Movie February 10th

A joint invitation from the John Deere Plow Co., and their agent Mr. E. Jennings is extended to the farmers of this district to be their guests on Monday, February 10th. The entertainment will be held in the Odd Fellows hall at 10 a. m. and 2 p. m. Two complete talking pictures will be presented free, including motion pictures at noon. Come and take advantage of their hospitality.

Additional Local News

Children's Memorial service in St. Patrick's church at 3 p. m. on Sunday next.

A few days ago Mrs. Geo. R. was received the sad news of the death of her son, Years Day at London, England, of her brother, the late Mr. James C. Cunningham.

Miss Elsie Mawer of Pleasant Valley has been a guest for the past few days at the home of Mr. and Mrs. E. E. Todd.

Mount Bridge Party.—On Friday, February 7th, the Legion are putting on another of their popular card parties at 8:30 in their hall. Good prizes and good supper are served and enjoy yourselves.

Saturday next is the first of February.

Mr. P. A. Straub has the number on the ground for a new home which he will build next spring on the property in the south east end of town. And the weather still remains most grand.

Mr. A. E. Holdings is in Calgary for the balance of the week attending a school of instruction for Chevrolet dealers on the 1936 car.

Mr. A. Larkin was a visitor over the week end with his sister, Mrs. J. M. Hingray, near Carleton.

Fun News

Miss Helen Lumma has been on the list the past week. Mr. and Mrs. O. Fry to be over the arrival of a son.

Mr. E. E. Perry has been very sick the past week. The store recently taken over by Mr. E. E. Perry is being located to a general store.

The 20th Credit Community and party held in the hall last Friday evening was well attended and everyone reports having an enjoyable time. Watch for an announcement of the Musical event to be held later on.

Every Chevrolet has a bad accident while waiting town last week. The two stopped and not but four badly damaged several others.

The two cars expended in making a game again at the race. It was known the two of them were about ending a bid.

Memorial Service

A memorial service for our late son, King George V., was held in the Legion hall on Monday afternoon in the Legion hall. Mr. W. J. Kent read the lesson, Rev. Rave delivered the address and Rev. Woollett gave the beautiful prayers. Appropriate music was led by a choir with Mrs. Borvill at the organ. The various lodges, the Legion, the Scouts and Cubes, the Girl Guides, attended in a body.

The order of service was as follows:

Organ Prelude—Large Prayer Hymn—"Abide With Me"

Responsive reading, Psalm 90 Lesson.—Mr. Kent Memorial Prayers by Rev. Woollett

Funeral March—Mendelssohn Address—Rev. Rave

"The National Anthem" Prayers for the King and Royal Family

Hymn Benediction Hymn

There was a large turnout at the meeting.

During the week of mourning all flags in Alix are at half mast.

The management of the Legion hall informs us that arrangements are also completed to reopen the picture show which was shut down before Christmas.

Watch for date announcement. A number of improvements are being made which include a stationary machine and a new screen.

BUY IT HERE!

If you want to help your town
Buy it here;
Help it up instead of down,
Buy it here.
Every dollar that you spend
Helps a neighbor or a friend,
Helps to make depression end,
Buy it here.

If you need a suit of clothes
Buy it here—
Or a rake or garden hose,
Buy it here.
There'll be bargains here galore,
Held on high in every store,
No place else can offer more;
Buy it here.

Just resolve to do your bit:
Buy it here—
Much an income will permit,
Buy it here.

Be ever everybody's mistake,
Buy everybody's sale
Give your own home town a
boost,
Buy it here.

School Board Is At War

Another yearly event in over, the annual meeting of Alix Consolidated School District held on Tuesday of this week, and as usual a crowded room was on deck.

The meeting was presided over by Mr. C. Rouse with Mr. L. Siddons acting secretary for Mr. Putter the regular secretary who, although present, was suffering from a sore throat trouble.

The first order of business was reading the secretary's report which showed that our school was in good financial condition, and the several reports from the trustees fully set forth the efficiency of the teaching staff.

A prolonged discussion to a place as to the difference in mill rate of the village and rural divisions of the consolidation, where Mackie being present explained that the reduction to the village mill rate was due to a rigorous collection of arrears, and he pointed out that if similar action was taken in the rural district, the regular taxpayers would not be penalized for the defaulters.

Nominations for trustees for Alix and Open Valley resulted in the unanimous reelection of the two retiring members, thus leaving the board as before, L. Siddons, W. L. Putter and C. Rouse.

The usual agitation for a reduction in the secretary's salary was not acted upon, and the hiring and stipend was left with the board.

Complaint was made that the taxpayer was not qualified to discuss the business of the year as their only information was given at this meeting, so it was therefore moved that in future a printed copy of the statement be sent to each taxpayer at least one week prior to the annual meeting.

A movement was authorized for the introduction of Grade XII into the school, as motion of Mr. U. O. Marryatt, seconded by Mrs. E. Leber, the trustees were instructed to do all in their power to have this grade added.

The matter of tuberculosis, most diphtheria and scarlet fever was brought to the attention of the meeting and the board was authorized to write the Department for further information.

Mr. P. A. Strub asked if any resident pupils were continuing to the finance of the school. The act was read and on motion of Mr. Strub and Mr. W. Parby the board was told to advance payment for these scholars.

The meeting was adjourned at 8 p. m.

Ratepayers Endorse Action Cut In Secretary's Salary

The Laurent M. D. annual meeting on Saturday last drew the regular large crowd and the matters in hand elicited the usual discussion.

Reeve Dittie was in the chair and acting secretary, J. McCarty, presided over the books and read the financial statement from cover to cover.

In the Liabilities column appeared an item of \$4750.77 delinquent payments on machinery. This was considerably higher than last year and an explanation was asked. This was satisfactorily settled by taking into consideration that arrears of interest not heretofore compared made the difference.

At 3 o'clock Returning Officer T. Temple declared the meeting open for one hour to receive nominations for councillors for Divisions 2, 3, 4 & 5.

The ratepayers of Division 5, being unaware of Councilor Weatherill's resignation, selected for and were granted a month in which to select a councillor for their division.

The matter of the secretary's salary was thoroughly discussed when Reeve Dittie advanced the information that the council had placed on record a motion that \$1500.00 be the maximum salary for a secretary of this Municipality.

A motion was then carried to the effect that the meeting had full confidence in the board and would leave the hiring of a secretary in their hands at a salary not to exceed the \$1500 already set.

A suggestion was made that all public works be held up until outstanding obligations were settled.

At 4 o'clock nominations were read as follows:

Division 2—A. G. Dittie and Peter Jamieson.

Division 3—R. E. Hacht.

Division 4—L. V. Carter and L. R. Forch.

The councillors met in the evening to consider the nomination applications for the secretary's act but decided to defer the appointment until the first meeting of the new council.

Einstein Wrong?

A SIMPLE little theory—devised by W. B. Campbell, of the University of Illinois, and published in the *Journal of Optics*, says that the light waves of the visible spectrum are not stationary, but are in motion, and that the motion is in the direction of the light waves. This theory is in direct opposition to the theory of the stationary light waves, which is the basis of the theory of the stationary light waves.

According to the new theory, the light waves are in motion, and the motion is in the direction of the light waves. This theory is in direct opposition to the theory of the stationary light waves, which is the basis of the theory of the stationary light waves.

NEW M. D. COUNCIL, MEETS

A regular meeting of the Council of the Municipal District of Langdon No. 24 was held in the Municipal office at 8 p.m. on Friday, March 26th.

The Council was called to order by Mr. A. G. Carter, Mayor, and Mr. W. J. Warren, Chairman of the Council.

The Mayor reported that the Council had met on the 15th inst. for the purpose of electing a new Council.

The Council then proceeded to elect a new Council, and Mr. W. J. Warren was elected Mayor.

BENTLEY BECOMING ALICIA IN SHAPES OF DOING SO

It is a little interesting to find that the little girl of the famous Olympic team, Bentley, is now a young woman.

Bentley, who was elected to the Olympic team, is now a young woman, and is still in the Olympic team.

The north is reaching at a speed of 1200 miles per hour at the equator. As we travel north or south, the speed decreases, until at the poles it shows down to nothing.

It does get very much warmer at the equator. In fact, it is 120 degrees Fahrenheit at the equator, and 12 degrees Fahrenheit at the poles.

One word from today is "May Day"

Miss Ann Marie Magle's Wedding Home on April 18th, to Mr. and Mrs. Mary Anderson, a son.

Household is, shift around. When Mr. and Mrs. Davies move into the new home on Lake street, Mr. J. L. Davies will move into the house at 1001 Avenue and Mr. and Mrs. J. Johnson will move from 1001 Avenue to the house at 1001 Avenue on Fraser street.

Last week Don Paulsen wrote a beautiful note to the house at 1001 Avenue to a residence on Lake street.

Mr. H. Rogers came through from Vancouver, arriving at Alta on Sunday, and returning to his home in Regina on Monday.

Mr. Rogers will spend a year at the "Coast" Mrs. Rogers went out by train last night.

When school re-opened on Monday after the Easter vacation, the summer school was less than the regular school was.

The Sunday School for next Sunday will be held at Lake St. 10:00. Golden text: "The rule and power of the church is the power of the church."

Mr. and Mrs. R. L. Hanson Sunday school friends.

While some of our farmers have started on the land, it will be a few days before we can get the wheat out of the ground. The wheat is now in the ground, and the wheat is now in the ground.

Mr. H. Rogers, a resident of Regina, is now in the city. He is now in the city, and he is now in the city.

WIRELESS CHANGES RADIOS

Another interestingness has taken place in our town when the local wireless store business to Mr. R. J. Watson, who for years has been manager of the Famous Co-Operative Store at Haultah. We are indeed sorry to learn that Mr. and Mrs. Lane and family are leaving Alix, for during this year in the wireless life of our town they have made many friends who will join with us in the hope that they will find life elsewhere where they may obtain no better. The new proprietor will take over the business in a few weeks.

AMATEUR SOCIETY

Mr. Bert Brown has entered the battle with opposite Holdings Garage in which he will open up a Garage and Fresh Air. The interest has been thoroughly re-enthusiased and painted and so understood by a making every effort to be ready for business tomorrow (Saturday).

RE-ORGANISE FOR BASEBALL

There was fair gathering on Monday night last for the re-organization of the Alix baseball team. The players and the boys should show in good hand. Mr. T. M. Watson was elected president, Richard Taylor, secretary, and Mr. R. L. Peterson as manager. The team to start with is: Pitchers—Gordon Wilson, Ben Pines and W. Condit.

Catcher—Frank Henry
1st Base—Gordon Wilson
2nd Base—Jack Pines
3rd Base—W. Condit
4th Base—Ben Pines

WOLF CRIES

Two entries of Wolf Cries resulted in Red Deer for the Alberta Provincial District Competition. After a busy afternoon of competition in Lethbridge, the Wolf Cries and general knowledge questions, the Shield was presented to the winner, the Wolf Cries of Red Deer. The winners, led by their Red Deer members of the 1st Alix Wolf Cries, won the Shield by a margin of 10 points over the 2nd Alix Wolf Cries. The judges, Mr. A. McPherson of Alix and Mr. Pines of Red Deer, are as follows:

White Six of Red Deer 200
Tweedy Six of Alix 20
Brown Six of Alix 20
Red Six of Red Deer 20
It was through the kindness of Mr. A. Alix, who drove his car to Red Deer that all the Cries in the Alix were able to take part in the competition. We wish to take this opportunity to thank him for his kindness.

The Social Committee which took place at the same time was in the hands of the Committee of D. E. McPherson. Two prizes from Red Deer and one from Mirror took part. After a very interesting afternoon of Billiards, Bridge and Freighting the Shield was presented to the winning party in the Red Deer Troupe. The winning group is as follows:

Members of Red Deer 600
Eagles of Mirror 40
Brewers of Red Deer 20
Assistant Commissioner H. Brown and Troupe Leader H. Robinson accompanied the Commissioner to help in the launching of the mirror team.

Commissioner Clark reports of the same activities, in which Mr. Clark and family were one of the participants, published last week, was not just correct. Mr. Clark's car was badly scratched by being caught in a ditch last week.

Following a trial last week, the weather seemed to need to use a few more wheels and so far with a few days of much needed rain.

H. J. BROWN, President, has been elected to the position of President of the Alix Free Press. He will be in the town for the summer. The office is at the Alix Free Press.

AMATEUR NIGHT IN ALIX

Friday, July 26th, is the date set for the "Amateur Night" at the order of the members of the Alix League commencing at 8 p. m. sharp. Consistent of everything that is of interest to the public, prizes will be given for three classes, namely, Juvenile, Junior and Adults. Five judges will be chosen from the audience to pass on the different items. Prizes must be in the hands of the secretary, Mr. J. Tatham, or on before the 10th inst. See posters for full particulars.

FREE MEETING FOR THE WOMEN

Have you made up your mind to attend the meeting being called by the Agricultural Society for Saturday, July 27th at 8.30 p. m. in the U. F. A. Hall? It is worth it to the other fellow, but it may be to the same. Your address is wanted on the matter to come before the meeting, namely whether or not to sell the grounds and buildings. We are going to have the Fair back again and Alix is expected to handle a good show, but if we let the property pass to private enterprise we might as well say goodbye to an Exhibition here and there. Give the important meeting a hand and be there.

Good Minimum Price Needed

The setting of a fair and good price without by the Wheat Board is a matter of primary importance in Alberta and Western Canada. The Alberta Wheat Pool invites the cooperation of all organized bodies who are interested in seeing this desired and brought about. It is all so important that the Federal Government be impressed with the need for the continuation of the Wheat Board.

The experience of 1935-36 crop shows that the setting of a reasonable minimum price provided a measure of protection for the wheat growers that could have been obtained in no other way. The Alberta Wheat Pool contends that the lesson, if any, entitled are vital as compared with the advantages gained by providing purchasing power for the farmers of the west. A drive to bring about lower wheat prices was frustrated by the Wheat Pools in co-operation with the Federal Government last year. While the situation has changed somewhat and prospects appear brighter for improved prices this year, it is suggested that the welfare of agriculture needs the steady influence of a substantial minimum price in order to offset adverse movements which may develop later on.

VILLAGE OF ALIX

The July meeting of the Village Council was held last Monday evening with all members present.

Minutes of the June meeting were read and approved.

A letter was read from the Calgary Power Co. quoting a price of \$35.00 for motor 1 street light.

The Sanitary Inspector's report read and in the main showed our village in good condition.

The road inspector had been here and passed on the re-conditioning of the highway through town at an approximate cost of \$500.00. It was decided to proceed with the work providing the department would go \$50.50 with the village.

A letter from the department confirmed the appointment of Mr. R. L. Robson as auditor.

The secretary was instructed to write the Department of Health that a lot of cows for testing would be ready by September 1st.

The secretary was instructed to issue a check for \$1700 to school.

A letter from the department stated that the Government share of relief had been cut from 70% to 65%.

Representing the Alix Agricultural Society, Mr. Robert Whitefield appeared before the board with a request that aid be given in retaining the society's grounds as a public play ground. The matter was left in abeyance till after the next meeting on the 28th inst.

The police were ordered to enforce the tapping of cows off the streets.

A number of accounts were presented over \$300.00 of which were for relief. Meeting adjourned.

Minimum Wheat Prices

The Alberta Wheat Pool invites the co-operation of all organized bodies and all interested individuals in impressing upon the Federal Government and the people of all Canada the importance of fixing a minimum price for wheat above the average cost of production.

This can best be done by resolution passed by boards of trade, municipal councils or other similar organizations, or letters to members of parliament.

July 14. D. Council Meeting

The July meeting of Laramie M. D. Council No. 289 was held on Saturday last with all members present and Bruce Hickey in the chair. Minutes of the June meeting were read and approved. Miss Johnson reported to Council that she holds a mineral lease of 40 acres, being on the south side of the NE 11 30 24, which is not easily accessible except through the 130 acres on the north side of said quarter. Moved by Councilor Hest that we recommend to the Dept. of Lands and Mines that Bruce Johnson be granted an additional 180 acres on the NE 11 30 24, which is a special lease to use and occupy, which will give us outlet from his mine and avoid any further trouble with present lease.

Servatory read Notice: Two orders of Mortgage on the 14th-25th W. 4th. Moved by Councilor Ockrall to accept commission. Carried.
Secretary read by law no. 28, by law proposed to the Local Tax Arrears Consolidation Act, 1934. It was given the 5 readings and became law.
The Secretary reported that he had submitted to the Dept. of Lands and Mines, a complaint made by D. Bender that C. Dene had found road allowance between sections 9 & 10, 30 24 and the said Dept. had advised that they had instructed the Director of Survey to investigate same.
Moved by Councilor Dene to accept report and motion, seconded by the Secretary. — Carried.
Moved by Councilor Hest that we accept all Mines and Minerals and that we make levy for same on June 1, 1937. — Carried.
Moved by Councilor Hest to the extent of \$250.00 granted for road inspection, that the inspectors proceed to call upon as many farmers as possible to advise them the best method of eradication of noxious weeds. — Carried.
Accounts and labor sheets to the amount of \$151.00 were passed for payment, \$445.00 of which was paid.

Moved by Councilor Walker to pay account of H. E. Mann, correction to memorandum checks in 1935 for \$45. — Carried.
Moved by Councilor Ockrall that labor of Government bridges built be funded on 50% basis, 50% change to local citizens bridge to be built and 50% to government. — Carried.

Will Beautify Cemetery

At their meeting last week, the ladies of the W. I. decided that, obtaining permission from the Village Council, they would take over the beautifying of our cemetery and a committee was appointed to proceed with arrangements. The council have not only agreed to the proposal, but have promised that they would be behind the committee financially and otherwise.

The plan will be to hire a chain up and down the main avenue, engage a permanent caretaker for the summer months. To raise money for the initial work, a sale and sale of money, etc. will be held by the ladies of the W. I. on Saturday afternoon, July 18th, in the U. F. A. Hall. As this is a new departure in the institution, a separate fund will be created for the ladies, all monies raised for the purpose will be paid with a published statement of the price as in the work done and cost of same.
This is a matter which has long been in the minds of our people and we are sure our citizens, read and write, will find their commendable idea in their own commendable idea.

HURRY! HURRY!
Today (Friday, July 17) is the last day on which to make your entry for the Big August Night to be held on Friday of next week, the 25th, in Legion Hall, Alex.

PUBLIC MEETING
A meeting for the purpose of nominating the Alex Board of Trade will be held at the office of The Alex Press on Monday evening July 20th at 7:30 p.m. All past members are cordially requested to attend.

The heavy aroma of pine cones burning behind giant paper-encased gods that guard the exhibition temple, spread out through the dark, shop-lined streets of the Oriental bazaar into Vancouver's downtown

There were touches of the western world within the heather arch that formed a gateway to the fair. Soft drink stands bordered the main

WEDDING

A quiet but pretty wedding took place at the United Church Mass on Saturday evening, September 5th, when Miss Ruth, youngest daughter of Mr. and Mrs. W. H. Barton became the bride of Mr. Walter, second son of Mr. and Mrs. Chris Alfors, both of Alix. Rev. J. D. Woolhart officiated while Mr. and Mrs. R. Barker were attendants to the bride and groom.

The happy young couple will make their home in Alix.

Mrs. Russell Bennett (nee Elsie Edwards), was feted at a shower held in her home Wednesday afternoon, September 2, at the L. O. O. F. hall. Among the hundred guests present were: the bride's mother, Mrs. M. A. McKenney, two sisters, Misses Thelma and Kathleen Edwards; Mrs. Elmer McLeod; Mrs. R. J. Bennett.

The hall was appropriately decorated in pink and white color scheme by lovely summer flowers and streamers. In the centre of the bride's table was a lovely wedding cake, a gift to the bride by her former employer, J. Christensen.

The guests were entertained by a musical program provided by the following artists: Miss Ima Conway, Mrs. K. Jardine, Lorraine Dupuis, Verma Phelps, Mrs. T. Sible and Miss M. Bolinger.

A dainty buffet lunch was served. Mrs. Bennett was the recipient of

many beautiful and useful gifts from her host of friends.

A very painful accident occurred when Mrs. T. M. Pedersen had the misfortune to have her hair caught in the wringer of an electric washing machine. Nearly all the hair was torn off the top of her head before the washer could be stopped. The accident occurred in the Imperial Hotel.

Mrs. J. H. McLean entertained on Wednesday afternoon of last week at her home. Afternoon tea was served. The guests present were: Mrs. Norman Jaegers, Miss Joan Bloomfield of Greenwood, H. J. Mrs. A. McLeod, Mrs. F. L. Smathers, Mrs. W. Gray and Mrs. L. Murray.

Mr. and Mrs. Albert Ray and daughters Irene and Joyce have returned from a trip to Vancouver, where they spent a two weeks holiday.

Mrs. James Henderson arrived from Barbours to join her husband here, who is on the public school teaching staff.

Miss Martha Alfors of Fernhurst spent the week end in Alix visiting relatives.

A wedding dinner was given in honor of Mr. and Mrs. Walter Alfors on Sunday at the home of the bride's parents Mr. and Mrs. W. H. Barton. Immediate relatives and friends of the young couple were present.

Mrs. Lued of Leckbidge, Worthy Grand Matron of the O. E. S., paid the local Chapter an official visit on Wednesday night. Visitors were present from adjoining towns and a pleasant and profitable meeting resulted.

LARGE CROWD WITNESSED OPENING CEREMONY

The opening of No. 2 plant of the Central Alberta Dairy Pool at Red Deer on Saturday of last week was a step forward not only in the Company's program of co-operation in the dairy industry, but a move of progress in central Alberta. It was estimated that upwards of 5000 people witnessed the official opening by Premier Albertart of the "Milk Condensing Plant" the first to be established in the Western Provinces. The new building was thrown open for inspection and been interest was shown in the modern machinery, some of which was in operation.

President Ballantine of the Board of Trade, presiding and introducing the speakers, congratulated to the management, welcomed the new plant to the city and extended the hand of greeting to all the visitors.

On the platform were, in addition to the Premier, the Provincial Dairy Commissioner, J. R. Sweeney; Hon. E. C. Manning, Minister of Trade and Industry; W. Adams, Pool Manager; J. D. Johnston of Fernhurst, president of the Pool; F. J. Setters, Pool Secretary; and three members of the board, A. C. Johnstone of Crows, J. W. Cochrane of Alhambra and J. V. Greenwood of Lonsdale.

Manager Adams thanked the citizens of Red Deer for the co-operation

behalf of the board that they were pleased with the new plant, while Secretary Setters outlined the program shown; President Johnston stated on behalf of the plant at Alix and asked for whole-hearted co-operation by the milk producers of Red Deer district.

Premier Albertart brought greetings and good wishes from the Government and trusted success would attend the new enterprise. He had not known Mr. Adams very long but judged him a super-genius of co-operation and a valuable man for the province. He stressed the need for the purchase of home products, which would help in putting our people to work and tend to prosperity. If we are truly co-operative we will ask our merchants for their goods.

Mr. Adams then presented the Premier with a token of the occasion, following which Mr. Albertart opened the doors and declared the plant officially open.

REMARKS AND PRESENTATION

A meteoric reported to be 20 times more powerful than dynamite, has been developed, but authorities have forbidden its manufacture in the United States.

The lowest air temperature ever observed was 133 degrees below zero, recorded on a sounding balloon sent up from the island of Java, near the equator.

British Sentiment Still Dominant

If the issue of Canada, the subject of the country's expression in relation, many of life and even of speech, is becoming more and more a matter of the heart of the Dominion, as people say, the sentiment of her people, remains as truly British as in United States Canadian days.

The foregoing is but the answer to those interested in the country's attitude towards the United States. It is the opinion of every one who reads the United States and the effects which is expected to be a contribution for the interest of the United States the country to be.

Those who raise the issue of free trade, overlook the fact that the majority of the constitution is great strength, because it is the spirit within and not the nature of the outward which makes the difference.

Building of this truth must have helped the country of Canada to be as active in the United States as it is in the United States.

The "aligned" American of Canada, says O'Connell in a very thorough and intelligent way, "is usually regarded as a very moderate one."

ALICE - ALBERTA

ALICE AGRICULTURAL SOCIETY'S ANNUAL FAIR

All roads will lead to Alice on Wednesday next week, September 23rd, when the Agricultural Society are holding their 30th Annual Fair and Sports Day.

A gala day is in store for those who attend, for the programme is a highly interesting and well timed sports event for everyone. The great big fair building are in readiness and judging from entries received, an excellent exhibition of crops will be on display. Topping the day it will be the dance in the evening with music by Al Oliver and his orchestra.

Let's attend to make it a grand affair, a success and assist the Society in supporting their cause. Every effort made to have a good day for Alice.

AGAIN ALICE BROTHERS WILL

Mrs. Elmer's passing will be felt
 by her many friends.
 J. F. Flowering and Son were in
 charge of funeral arrangements.

St. Monica's W. A. held an English
 Afternoon Tea on Wednesday of last
 week at the home of Mrs. H. E.
 Stevenson. The tea was well attended,
 the proceeds going in aid of the
 church.

The opening of the shooting season
 was well celebrated here on Septem-
 ber 18 and 19 by Mr. and Mrs. Earl
 Kentel, Mr. and Mrs. M. Roy, and
 Mr. and Mrs. O. Boode when they
 bagged a grand total of 126 ducks for
 the two days.

Mrs. L. Ray and daughter were Red
 Cross visitors last week.

Mr. and Mrs. P. Flaherty of Pin-
 ham, Sask., were visitors at the home
 of Mr. and Mrs. J. Taylor last week.

Mrs. Hugh Hanna of Burbank,
 Alta., has been a guest at the home of
 Mr. and Mrs. J. Paul for the past two
 weeks.

Mr. and Mrs. J. H. Fargnaut of
 Vancouver are visiting at the home of
 Mr. and Mrs. K. Jardine at the present
 time.

Mr. D. Jardine of Spirit Hill, Man.,
 spent several days visiting with his
 brother K. Jardine.

The home of Mrs. J. Paul was the
 scene of a party held in honour of Mrs.
 H. Hanna of Burbank. The following
 guests were present: Mesdames R.
 Armstrong, C. Cavanaugh, J. P. Cavanaugh,
 J. H. Purcell, M. Hill, J. P.
 Paul and G. Dryden.

A surprise party was given in hon-
 our of Mr. and Mrs. J. Henderson by
 their many young friends on Monday
 evening of last week.

Mrs. P. Cavanaugh entertained at
 her home on Thursday evening of
 last week in honour of Mrs. H. Hanna.
 Guests present were: Mesdames J.
 Paul, G. Dryden, C. Cavanaugh, M.
 Hill, W. Boyd, J. Purcell, R. Arm-
 strong.

Mrs. G. Thomas and children, ac-
 companying by Miss D. Boyer, sister-
 in-law of Henderson last week when they
 spent a few days.

Mr. and Mrs. Wm. Scoupe are soon
 leaving on an extended trip to Iowa
 and Central States. It is hoped that
 the trip will prove beneficial to the
 health of Mrs. Scoupe.

A church service of the Mirror Re-
 ligious Lodge was held in the United
 Church on Sunday evening of last
 week, Rev. J. D. Woodall delivering
 the sermon.

Mr. K. Jardine has moved his resi-
 dence to the J. F. Flowering
 Street.

LOOK AT LIFE

By Robert Bechtler

TRIFLE POSSESSION

One of the common forms of possess-
 ion is break down in the possession of in-
 stantaneous for exact foods. Just living
 in the circle foods.

When a man opens his eyes very
 wide and says: "Boy, what I wouldn't
 give to be a ruler of Japanese railways
 right now!" get him a ruler of rail-
 roads and what he does to them.
 The chances are that he can't run
 down more than three months.

Almost everyone has some thing
 that he calls a lot about thing,
 because it is either hard to get or hard
 to lose. But when they are con-
 fronted with their dream that it is
 very often true that some men live in
 the clouds.

I need to have a lot about trifles.
 (Incidentally while writing, I mis-
 spelled the word.) Now all this I
 actually know about trifles was that
 they came as a sting to several very
 busy chaps. I had never really
 tasted a trifle on the head, but I had
 read about them, and talked as if Paris
 knew of my craving for them.

Then, one night, I had my bluff
 called. A friend with whom I was
 dining said: "You ought to be very
 happy tonight. I see that they have
 trifles on nature on the menu." I
 said "Oh, boy!"

There being very few things that I
 cannot eat without relief, I had every
 reason to believe that I could count on
 a trifle, even though I had never
 tried one.

And I probably could have made a
 good deal of it if I had been in top form
 that night. But I was more in the
 mood to be pampered and a little
 trifle although considered a delicacy
 is not exactly modest. It turned out
 to be something on the order of ed-
 ible punice or a small black spoon.
 It had no taste. Just the golden.

But I had to dig in and look so much
 like a scientific explorer as I could,
 touching my lips and making French
 gestures with my free hand while my
 companion watched with what I
 thought I detected to be high class.

I was cured of my trifle habit, but
 I still have several dishes that I re-
 vived to crave and which I have never
 been to eat under such scrutiny. One
 of them is tete de veau or the head
 of a cold served with brain, wine and
 eggs. If you ever hear me ranting
 about this, do even it will pay you to
 let me eat and watch.

SHIRAZIS FAIL TO GET AWAY

On going to work Friday morning
of last week, Secretary Ralph Green-
wood found the safe in the Municipal
Court had been "blown" by burglars.

He immediately notified Constable
Bentley of the R. I. M. P. Station,
who with Sergeant Port of the Cam-
eron Detachment, were sent on duty.

However, no much headway has
been made in questioning the thieves,
for gloves were worn when the at-
tempted robbery committed.

Fortunately, the "trap" did not do
the intended damage, only causing
jarring the top left hand corner of the
door, but leaving all the contents of
the safe in place. Further frightened or
alarmed the burglars left.

There was \$125 in cash in the safe
at the time.

Entry was made through a back
window.

CHRISTIAN SCIENCE

At all Christian Science churches, the subject of the *Lesson* sermon will be "Mortals and Immortals." The following is one of the scriptural quotations contained in the *Lesson*:

"Philly, brethren, whatever things are true, whatever things are honest, whatever things are just, whatever things are pure, whatever things are lovely, whatever things are of good report; if there be any praise, think on these things."—Philippians 4:8

One of the correlative passages from "Heaven and Health" with key to the Scriptures by Mary Baker Eddy, is as follows:

"We must form perfect models in thought and look at them continually or we shall never move them out in good and noble lives. Let us establish, goodness, every justice, health, holiness, love—the kingdom of heaven—reign within us, and sin, disease and death will diminish until they finally disappear."

The women's strike on the Pacific coast has spread to all important ports in the U.S. Two of the largest coast-transporting firms, under the American flag, were forced to cancel their schedules owing to the "sit down" strike of the sailors' union.

THIS AND THAT

Premier King arrived back from Chicago on Nov. 15th. One of his announcements was that the federal parliament will be called on 7th in the new year.

That of a total of nearly \$2 million was made in the second U.K. election, the combined minority parties received less than a million votes. Given the Government plan to give all over \$5 a pension of \$20 a month received comparatively little support.

The Social Credit party is being organized in R.C. Along with this organization is the R.C. Social Credit Co-operative Union. This latter is what is known as the trading section of the party.

Premier King brings the new book from England that His Majesty the King places in his hands over after his coronation on May 19th. King Edward's trip, if it is made, will mark the first time in history a reigning British monarch has visited Canada.

A late dispatch says that the King's visit is not likely to take place till 1935.

There is a demand for more who have been to make whisky harder down in London, that.

There is a young lady on trial in Halifax, N.S., charged with adultery with married fishermen. The church, labor and women have rallied to her defense. This was the effort, however, if any more lady is charged with adultery, let us remember the general number of children.

Many have wondered at the recent proclamation of neutrality by the King of Belgium. It is an attempt to prevent the spread of a looming threat to Belgium unity and the consequent danger of this for independence. There are pro and con French elements within the country who are always quarrelling. The stand for neutrality stops this quarrelling and both parties are now concentrated on purging the country of Germans.

The provincial Conservative leader, Mr. D. M. Duggan, is an opponent of Social Credit in all its forms, and is prepared to quit the provincial field, if necessary, if by so doing he can consolidate the opposition against the Abolition. He wants the opposition to be an organization that only one party will be in the field to combat the Social Credit party. With three or four parties bidding for power he does not see much chance of defeating Abolition.

"Freedom of the press is the great, ordered democracy, but it is always linked with responsibility."—Dr. Cady.

BOT WITTY

Teacher—"Can anyone tell me what happened after Napoleon murdered his army?"

Pupil—"Yes, sir, he prepared the enemy and took the enemy by surprise."

Teacher—"This day, my lad, I'll have no more from you."

LOOK AT LIFE

By Robert Boudreau

THE DANCERS OF BASS BANGING

A great many people think that they could sing bass. In fact, a great many people think that they are singing bass when what they are really doing is shouting the air in an octave or two below the rest of the group. A really good bass is the hardest drink to find.

And yet, how many people know the dangers which confront a bass singer? The accomplished dancer knows to maintain composure as "the bass" just "risk" what of them? One must pay the penalty for singing bass, just as for all. No more of that!

Several years ago a picture appeared in Punch, which showed an elderly, somewhat looking gentleman stopping in front of a group of small boys who seemed to be singing Christmas carols. The smallest of the group (and he was so small as to be hardly worth including in the picture at all) was holding his handkerchief to his face in evident distress.

"What's the matter, my little man?" asked the old gentleman in the manner of old gentlemen in Punch pictures.

"Why are you crying?"

"It's not crying," replied the leader of the carolers, "I just tried to sing bass and it made 'em more dead!"

The eyes, too, come in for their share of punishment in attempting a really good descent into the lower register: the eyes must either be closed (by far the safest method) or rolled back into the head as the voice goes forward. If the singer persists in looking at his audience while he chills in his collar he is running the risk of permanent debilitation of the eyeballs, which will give him a rather horrid look when he raises his head again.

Among other ills to which the bass singer is heir are "debut" moments, caused by teeth dropping into the chest at the lowest note and staying there, "ascending larynx" which means that as the other organs are lowered the larynx remains constant, giving the effect of raising into the throat and choking the operator, and actual faint, or *Humor's Disease*, caused by the stoppage of all functions except that of bass singing.

The question is "Is it worth it?"

Canada studies a good chance of gaining the railway monopoly. First it was Canadianization, the Colorado and then the Belgian Congo which held the monopoly. Now the product of Great Britain has successfully challenged the Belgian monopoly and held brought down the price.

The Prospect Of War

If it were not for the larger possibilities involved, the conflicting reports on the Balkan situation might seem to be of little consequence. But the Balkan situation is of great importance to the world, and it is not only the Balkans that are involved, but the whole of Europe, and the world.

As a Life Insurance Policyholder
Your Policy is Larger
Your Premium is Smaller
Because of Interest Earnings

YOU get more Life Insurance,
and you pay less for it, because
of interest.

The hard-earned savings that you
add each year for the financial
protection of yourself and your
family are invested for you by your
Life Insurance company in government
and municipal bonds, low
interest, public utility bonds, in-
sured and other income-bearing
investments.

Because of the income earning
—the money value of your savings—
—your money makes more money,
and this earning power of your savings
is put to work for you from the
moment you pay your first Life
Insurance premium.

At that moment, the Life Insur-

ance company that you have
chosen to act for you begins accumu-
lating money funds to pay
your policy claim promptly and in
full when it falls due.

These funds are regulated by
Dominion and Provincial Insurance
Acts and are mathematically calcu-
lated. To maintain them, both the
premiums you pay and the interest
earned on them are necessary.

The past played by interest is,
therefore, an essential part of your
Life Insurance contract. Your policy
is longer, your premium is smaller,
because of the additional
money that interest earnings add to
your savings, and this is true in the
case of 5,500,000 other Canadian
Life Insurance policyholders.

Apparatus are being entered on behalf of Emmanuel Ernst and Mrs. Pagnore, who are under sentence of death and are due to hang on March 3. The appeal of Ernst is based on the ground that certain evidence given by the R. C. M. P. officers was not admissible. For Mrs. Pagnore the claim is made that "the finding of the jury was against the weight of evidence."

R. B. Bennett arrived in London on January 4 on his round the world trip. He said he would be in London only a few days when he would take passage for Canada.

THE PERFECT HUSBAND

He never checked the household books, He never criticised her looks, He left about the petty cash, He seemed to thrive on routine tasks, He carried home the bats and balls, She purchased at the corner store, He paid her medicine in advance, He sent her to the South of France to spring, the wedding and the dressing, Provided no word of doubtful meaning, He secretly took the largest chest, And helped to turn his study out, Performed each trivial task she set him, And no one yet has ever met him.

SOMEBODY

Sombody means a small animal with long ears, A bodger is a person who collects lodges, Bodden is the study of Italy.

ALBANY PROVINCIAL GOVERNMENTS

Now that the Privy Council in London has declared that the Dominion lacks authority to run its own bonds order through legislative—could it be, such an unemployment insurance, minimum wages, day of rest, the country has other to radically change the Constitution in order for a more centralized government or vice versa to enable such with adequate authority. Entry into the former course is the most reasonable, even though fraught with more difficulties.

According to a high legal authority at Ottawa, the scheme as advanced by E. B. Bennett, appears the most workable. Entry into the former course is the most reasonable, even though fraught with more difficulties.

Previous conferences with this and in view have included only the premier and higher officials of the party in power, and these attempts were always made to decide upon the most workable and practical plan.

As the Constitution now stands the only hope for social legislation is by having the most provinces individually pass complementary legislation. With the history of Canada before us, we can rest assured that the social legislation referred to above will never be realized if we have to depend on the co-operation of our own provinces. They never will all agree on any one subject brought before them. Always one or two have held up against the rest. Provincial premier usually take a practical view. They can't be made to see that a measure that will benefit the nation is equally good for the province they represent. Through past solidarity they will reluctantly concede the national view on the issue of so-called "provincial rights."

To make any history in social legislation designed for the good of the province, but Mr. King and Mr. Bennett turn their attention to a more or less of provincial government.

After the conference of provincial premiers have shown approval of the proposed plan, they will then turn to the "three-headed politician" and request them to leave from the path of national progress.

ALBERTA DEBT COPY BE USED AT FAIR VALUE

OTTAWA, Feb. 26.—Imparting to the staggering mass of the unemployed and private debts, together with interest, new measures of provincial government, can never hope to be repaid to meet several new debts. John H. Thompson, late Social Credit adviser to the Alberta government, charged in an interview here that not even so much of the province could resolve the situation of debt reduction or debt repudiation.

Mr. Thompson insisted to add that repudiation formed no part of the creed of Social Credit.

He said that a measure of the interest and debt payments for a short time, and with Social Credit to provide confidence, the debt will be repaid within three years. It is not that the debt that the Alberta government will find that the proposed plan will take some years to implement, but that the measure is unworkable, and that the measure is unworkable, and that the measure is unworkable.

He said that the measure is unworkable, and that the measure is unworkable, and that the measure is unworkable.

"Be It Ever So Humble"

It is in the "humble house" of Canada that the great majority of Life Insurance payments find their way.

Many with human understanding would both the necessities of life—more it can for the "humble house" which thrives upon Life Insurance.

To the family which lives in humbleness, Life Insurance means money to pay food and clothing—money to pay the mortgage to pay household bills—money to educate the children. Life Insurance means money, in many cases, independence of poor wage slavery or public relief.

In your own community, as well as to hundreds of cities and towns across Canada, "humble living" in Life Insurance are doing "big jobs". During the past few years, policyholders and beneficiaries in Canada have received, daily, from their Life Insurance Savings, half a million dollars.

"It is ever so humble"—there's no power which cannot have the much-needed peace which Life Insurance.

"Province-Wide"
A POWER SYSTEM that Assures Many Advantages Otherwise Unavailable—

A PROVINCE-WIDE power system makes dependable Electrical Service available at a lower cost than would otherwise be possible, particularly to the smaller communities.

Rates throughout the Province are stabilized so that adverse local conditions do not necessitate increased local charges in an effort to maintain continuous service.

The technical services of our engineering staff—advanced and available to present and prospective communities.

Now industries and developments are assured of a supply of energy immediately available for their electrical needs. The growing demands of a community are anticipated and provided for in advance by reserve capacity of generating plants, substations and transmission lines.

CANADA WAX ON FLAX

Although the Canadian Flax strawage,

which dipped in heavy rain every week

during the years 1912 to 1916, showed

an encouraging rise in 1916 and all in-

dications point to a continued or better

increase for 1917, the production

of the valuable and useful flax strawage

will fall short of tonnage expectations.

These requirements, employed in the manufacture of paint, linoleum,

papers and other kindred Canadian

products, therefore, stand in need of

2,500,000 bushels. Of this year even this

small amount was passed up by the

Canadian farmer and processors were

forced to import bushels of flax strawage

from the United States, at a cost of an

equivalent in Linnest oil, from foreign

sources.

The best market anywhere with an

export market capable of absorbing 15-

20,000 bushels annually, is thereby

available for the Canadian farmer, pro-

ducer as he does the highest quality

flax in the world. This grows, it is

glad to see the absence of domestic

surpluses, where Flax is a cash crop

in a class of small field experiments

and research work now underway at the

various Agricultural development

agencies in the west, will be making

provision for the production of small

scale varieties and reports data on when,

where, and how the most profitable

crops of flax may be raised.

The same thing is providing farmers

with the opportunity to increase and

improve their flax production in two

or more cash crops. Anyone wishing

further information should apply to

the Canadian Flax Growers' Association,

604 Exchange, Winnipeg.

Through jobs men and women are

looking for work to hold up their hands

among their fellow-citizens, to be self-sufficient, to maintain

the standard of living.

With the exception of Alberta, the Dominion has made

substantial progress in the past year in the matter of increased

employment, but the Dominion has made little progress in

Canada in 1936, or throughout. On every hand—with

the exception of Alberta—there is a demand for more

employment.

What is the situation here? According to statistics based

for the week of December 11, 1936, Alberta had 1,400 more

jobs than for the same week of 1935.

The fact is that the present policy of debt repudiation has

not increased employment, but has increased unemployment

in Canada. It is the policy of the Dominion to

to allow of Alberta income in some forty-five million dollars.

This income is the same as the income of the Dominion.

SCHOOL ARREARS TO TUNE OF \$60 ARE IN DEFAULT

During the past year 352 A town school districts defaulted on delinquent payment, with total arrearage amounted to \$216,912, according to the report of the board of public utilities commissioners, tabled on Friday by Premier Aberhart.

Failing to meet payments also were four villages, three towns and one municipality district, the total from these sources being \$267,314.

"Due to actions on the part of a small percentage of the trade," the board reports that increased work was thrown upon it in the matter of enforcement of milk regulations.

Steps are being taken to prevent infraction of milk regulations. Several police court convictions were registered.

MERCHANTS SEE NEW CO-OP MOVE AS SERIOUS THREAT

Announcement that social credit organizations intended to enter co-operative wholesaling and possibly retailing of many lines of goods met with considerable unfavorable comment from local merchants.

The announcement was made by E. L. Lee of Cardston, chairman of a committee appointed by the Alberta Social Credit League.

The movement regarded this move as an encroachment on the business of firms now paying heavy taxes and license fees to the provincial government. So far as widespreading was concerned, retailers had adequate sources from firms at present established, they pointed out, while co-operative retailing was nothing more than a threat to established business.

"What we want to know," said one merchant, "is what manufacturing firms are going to sell to this co-operative. They can't do business with it and with us at the same time," he declared.—Calgary Herald.

CHRISTIAN SCIENCE

At last Christian Science Churches meet Sunday, the subject of the Lesson-Sermon will be "Solace." The following is one of the Scriptural quotations contained in the Lesson-Sermon: "O Lord, how great are thy works! and thy thoughts are very deep" (Psalms 92:5). One of the co-operative passages from "Solace and Health with Key to the Scripture" by Mary Baker Eddy is as follows (page 29): "God, Spirit, works spiritually, not materially. Brain or matter never formed a human concept. . . . humored ideas, pure, patient, and enduring, are transmitted by the divine Mind through Science, which corrects error with truth and demands spiritual thoughts, divine concepts, in the end that may produce harmonious results."

ACCIDENT LEADS TO MAJOR INDUSTRY

A now looking over a lamp, they say, started the Chicago fire. A spider climbing a thread brought Bruce of Scotland victory. But those and many other like historical incidents pale before the story of the housewife whose carolines (founder) one of the most important phases of the Canadian fish industry.

Away back in a Scottish village a housewife left a larder hanging from the rafters of her cottage as she went out for her day. She had left it too near the post fire, however, and when she returned the fish was all dried by the smoke from the fire. She decided to cook it anyway and the result was so appetizing that the news spread like wildfire and smoked fish became a national delicacy.

Today the popularity of smoked fish has spread everywhere and the appetite for this delicacy has caused Canadian organizations of international scope, some of which have been established for a century and more.

The Canadian climate has been found ideal for the production of this delicacy and other cured fish and today the Dominion holds a foremost place in world trade in the export of dried, smoked, and pickled fish.

It was one of those Hollywood parties. The crowd here was there—you know, the guy who sells everyone by their first name after two minutes. This particular drunk fastened himself on Ethel Barrymore. He kept Ethel for temporary insanity. Knowing the explosive temper of the stage's First Lady—the other folks just sat back and waited for the detonation. Finally, Ethel reached the boiling point. Giving the heel a thump on the back, she cried: "Ethel Hall! Don't be so formal. Call me Cuddles!"—Walter Winchell.

DEATH OF JAMES WIGHT

James Wight, living just east
of Red Deer, died on March 9 in
his fifty-second year, after an
illness of some months. Mr.
Wight was born in Scotland
and came to Canada with his
family about nine years ago.
In 1935 he came to this district
and took the Abbott farm in
Springvale which he operated
for two years before illness
compelled him to move to Red
Deer last fall. During his short
residence in the Springvale dis-
trict he had earned the respect
and esteem of his neighbors, and
their deep sympathy will be ex-
tended to Mrs. Wight and her
three children in their bereave-
ment—Red Deer Advertiser.

Mr. Wight was well known in
the Alix district, having farmed
here before moving to Red Deer.

FOOD FROM AIR

The atmosphere contains
nearly 80 per cent of nitrogen,
and only 3 hundredths of one
per cent of carbon dioxide.
From the latter minute supply,
absorbed through the stomata
of the leaf, plants derive the
carbon which constitutes more
than half their dry matter;
whereas access to this vast
store of nitrogen is denied to
all plants, except the legumes—
alfalfa, clovers, beans, etc.
Let us be truly thankful for the
legumes!

The Liberals in the Quebec
Legislature are out on strike.
They are protesting against the
disposition of Premier Duplessis.

Japan is now making rayon
from the hanks of soy beans.
In Manchukuo and North China,
it is reported that ladies
brought up on the milk of soy
beans grow amazingly strong.
Soybean products are made from
this wonderful bean. It is one
of the most profitable crops
grown in China.

It appears from reports that
Britain is looking towards Can-
ada with an eye for a neutral
base in case of war. The Man-
chester Guardian suggests that
"Canada holds a key position as
a secondary supply base in any
future hostility."

The attorney general of Al-
berta has filed an appeal against
the decision of Mr. Justice Ewing
declaring the Education and
Settlement of Debt Act ultra
vires of the Province. It is ex-
pected the case will be heard at

CUMULATION IN LONDON IS STIMULATING TRADE

LONDON, England, March 18.
—The death of a monarch, par-
ticularly one so beloved as the
late King George V., consider-
ably affects the trade in wear-
ing apparel, as witness the
serious falling off in coloured
linenry that took place in Brit-
ain last year, no universal was
the grief felt at his passing.
Likewise, a coronation has a
contrary effect, stimulating the
trade for gayest clothes.

This year the coronation of
King George VI is giving a
tremendous flip to the trade
for all kinds of wearing apparel
from dual robes down to the
ordinary man and woman on
the street, as well as for flags,
bunting, decorations of all
kinds, etc., etc., according to
the Industrial Department of
Canadian National Railways.
London, doubtless, will present
a gay picture this season and
a number of industries will ex-
perience a decided spending up
of activity as well as greater
financial returns.

MEHEMEL IN SPAIN

The conflict in Spain today is
the drama rehearsal of the next
war. Here the common man
can see what is in store for him;
dictators and war makers can
test the latest weapons and
methods of destruction . . .
Beyond the military, beyond the
armies—beyond and unlike
any other weapon that has
come into the science of war—
the airplane has grown into a
sphere of its own as the lance of
passion, hatred, cowardice, hostil-
ity. It has put definite
power into the hands of those
who, as Stanley Baldwin has
warned, soon destined, whether
they know it or not in their
madness, to wreck civilization.
—W.B. Courtney.

COMPULSORY VOTING AND COMPULSORY REGISTRATION

Compulsory voting and com-
pulsory registration were unani-
mously voted down on March 9
by the Commons committee on
the Elections and Franchise Act.
It was felt that the compulsory
system was inapplicable in the
Canadian climate, that the in-
creased cost entailed would not
be justified by the comparatively
small increase in votes polled in
countries where it is now in
operation.

A Radio Renaissance?

The radio industry in Ontario is one which has suffered especially for some considerable time and in recent months has been further depressed by the economic conditions. The industry is now in a state of depression, with many stations having to close their doors. The industry is now in a state of depression, with many stations having to close their doors.

Hidden Wealth On The Prairies

For some time past there has been a growing anxiety in the public mind as to the probability there are large quantities of untapped oil and natural gas in the forests of the north and the south of these prairie provinces. Indeed, it is not only the oil and gas but the timber and the land itself which are being sought after by the lumber and oil companies of the United States and Canada. It is not only the oil and gas but the timber and the land itself which are being sought after by the lumber and oil companies of the United States and Canada.

BEER and SOUP

NO! Those two refreshing beverages are NOT made in the same way.

Almost anything can be thrown into a pot to make soup—but the finest meat, the choicest hops and the purest water combined with technical knowledge and high class equipment are essential to the manufacture of good beer.

It is a combination of these qualities that make

WISCONSIN PROMISE

PLENTY OF NOBSTER

There is going to be a lot of water for crops this year, according to D. A. Richardson, inspector of Fisheries, who addressed the annual meeting of High River Fish & Game association during the week. He advised the members to pin their faith to anguilla which vermin in size and number those of 1928, when unprecedented rains flooded the western dry areas.

C.N.R. PRIDGOT SERVICE

W. H. Frym, C.N.R. Agent at Edmonton, announced recently that effective Monday, May 17th, the C.N.R. had extended their free pick up and delivery service for less than trucked freight.

Henceforth the railway performed service on shipments moving between points in limited territory. On and after May 17th, all shipments with the exception of a very few commodities moving between all stations in Alberta and Western Saskatchewan will be picked up and delivered to and out to the shipper or consignee.

CHRISTIAN SCIENCE

All Christian Science churches next Sunday, the only text of the Lesson-Service will be "And God is Light." The following is one of the scriptural quotations contained in the Lesson-Service: "What? know ye not that your body is the temple of the Holy Ghost which is in you, which ye have of God, and ye are not your own? For ye are bought with a price, therefore glorify God in your body, and in your spirit, which are God's?" (1 Cor. 6:19, 20). One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is as follows (page 280): "Highly understood, instead of possessing a material body, we are made of spirit, and we are God's temple, and we are God's body and of all existence, being perpetual in His own individuality, harmony, and peace. Mortality, imperfection and corruption these qualities in man, through His own matter."

A lecturer, addressing a meeting on "The Duties of the Housewife," said that it was the duty of every woman to mother her husband. Wish ing to what impression this had made on his audience, he asked all those to stand up who were willing to mother their better halves. Only one woman stood up.

YEE NEWS

Some weeks ago an epidemic of monies broke out in this community. Despite the fact that many children have suffered and a number of deaths taken place, there still remain citizens who insist that this is only a child's disease and all must have, and fall to rest by the medical backwash of the Yee children to continue attending school when others of the family have died. In allowing their children to run from house to house while under the influence of the Yee. Our medical health officer, Dr. Warren, is a man of high power and is doing all in his power to get the children under control. Do people realize that a few days in the penitentiary for breaking the back of the Yee children are now abating.

The average school of whites on the Yee Court, for the season, runs at about 250.

new Free Methodist Tabernacle.The annual camp meeting will
be held from the 8th to the 17th of
July.A lady living on Lake Street
was a bird on her lawn she had
never seen before. It is black
with a gold-colored breast, and
is a little smaller than a robin.
It is surprisingly quick in its
movements. Can anyone give
us the name of this bird?The last storm of Wednesday
evening was very unpleasant,
to say the least, while it lasted.
It came along just in time to
help in the leveling-off process
going on on the newly-plowed
school grounds, which made a
steady dust devil.The school Board is having
the grounds around the school
plowed and broken up with a
tractor outfit. It will be level-
led as soon as possible. When
finished it will make a splendid
sports field. The work being
done will be greatly appreciated
by the trouper set. The young
people of Altz are surely sad
on baseball.R. M. Robertson J. P. of Beau-
voir presided in a court case
brought by Mrs. Kene against
John Brethour, her postmaster,
charging him with short-chang-
ing her on the postage.There were no
offenses was supposed to have
been committed some time ago.Three post-office funds were
lost and are being sought by
the trouper set for the prosecution.The trial ended by the presiding
judge dismissing the case and
advising the jury to acquit the
defendant.

JANVINE BAY NEWS REPORT

(Continued by Mrs. A. Scott)

On May 1st, Mrs. Edith An-
delt, M.L.A. from Calgary ad-
dressed a capacity crowd in the
Popular House, Forterville, six
miles south of Haskett. Themeeting was sponsored by the
Jervie Bay Social Credit Group.
It was opened by the
audience, lead by Mr. W. W.
Scott, singing "Oh! God Our
Help is Above Us," as well as all
the chairmen, Mrs. Attilla
Scott, briefly spoke on the
subject, taken by herself and the
members of her group. She
then called upon the guest
speaker of the evening.Mrs. Goodie Goodie, her
address by stating that she was
not on the platform to win an
argument but merely to give her
audience the actual truth of
what happened at the last
session of the Alberta Legisla-
ture.Her address took the form of
a fast moving drama. In a few
sentences, she pointed in words
the background of the whole
episode in 1935. She set the
stage in the Parliament build-
ing in Edmonton, and by one
introduction the major actors
explaining the part they played
in the story. Clearly and con-
cisely she described and illu-
minated that arose over the
Budget, the Premier's con-
cession to the insurgents in setting
up of a Social Credit Board and
the true facts about the
"Dorville Crossing Story" that
arose over the famous budget.She told them of how the in-
surgents played the Premier for
four days in effort to win
his resignation, and briefly
touching on the Licensing Bill,
The Education Bill and the
Marketing Act, she explained
their purpose and how they
had through these three bills had
under Ten Foot Program
drawn up by the insurgents,
they themselves voted the bills
down. She left no uncertainty
as to what it is they want.If any of the readers of this
report have read the story that
Mrs. Goodie Goodie has been
talked legislation and would only
be pointed in her mind, the
writer would like to advise that
this is not true. No doubt, this
story has been circulated about
to keep her out of insur-
gents territory, but the writer
saw Mrs. Goodie Goodie refuse to go
on the same platform with her
the story because they are
serving for their actions at the
court sitting in her mind, the
writer would hardly stand the light
Mrs. Goodie could throw upon
them.When the chairman asked the
audience to ask any question
they might have in mind, one
gentleman stated,"We have questions, for the
lady hit the nail on the
head."The complete satisfaction
expressed by the crowd at the
time is in striking contrast to the
sneering outcries and dissemi-
nated lies that were heard from
the group who gathered in Haskett
the previous Tuesday night, to
hear Mr. Brown speak.M. L. A. for Lacanora, explain
his stand, the speaker's dis-
tinction. Mr. MacMillan was in-
terrupted several times, and the
audience, led by Mrs. C. E.
Wicks, was forced to cut the
questioning and discontinue the
cause of exorbitant contributions.Radio announced on Thurs-
day a big fire at Altz. All
buildings on both sides of the
street burned. Damage about
\$100,000.The people of Haskett
District are visiting a Piano and
Dancing located in Lorne's Bar,
Altz, on Friday, June 16th.
This will doubtless draw a good
crowd on as the nightingale
sings here.

WEDNESDAY

A pretty June wedding was held on
Saturday last at the home of Mr. W. H.
Hester, of High River. The bride was
Miss F. of Lethbridge, and the groom
was Mr. C. L. Lacey of High River, who
was married by Rev. S. J. of Lethbridge.

The bride was beautifully dressed
and was attended by Miss Ruthie Mat-
son of Calgary, and Mr. Philip Com-
stock of Lethbridge who were best men.

Wedding supper was served at 10
o'clock.

Both bride and groom were former
residents of Southern Alberta, Calgary,
and Lethbridge. Mr. Lacey is a graduate
of the University of Alberta.

The happy young couple will spend a
honeymoon visiting friends and relatives
at Alberta, then return to Lethbridge,
Saskatchewan, where Mr. Lacey will be
in charge of the business center.

during the absence of Mr. C. A. D.
Ford.

We are glad to report that Mr. T.
Walt, who has been ill for some time,
is making steady progress towards re-
covery.

The Mrs. Peter is in need of more
money. Another good deal of work
will be done and money will be
received.

Mr. C. A. D. Ford was in the city
last week. This makes a bonus,
with a lot of the last week of a
lot of work. On Wednesday, 1936, he

WEDNESDAY

A quiet but pretty wedding was in-
fused at the home of Mr. and Mrs.
C. Van der Bilt on Sunday, June 28,
at 1:30 p. m., when Edith Mary, only
daughter of Mr. and Mrs. C. Van
der Bilt, was united in marriage to Glen
Whitney, eldest son of Mr. and Mrs.
Whitney of this city. The ceremony was
performed by Rev. J. J. Woodhead.

The bride entered the living room
in gown of her father, in the arms
of the wedding. Music played by Miss
Ruth Rogers.

The bride's lovely charming in a pure
white tulle gown, her lovely veil
being carried by a young girl of the
wedding, and carried a bouquet of roses
and lilies.

The bride was attended by Miss
Ruth Rogers, her bridesmaid, and
Miss R. H. Rogers, her maid of honor.
The groom was attended by Mr.
Hector Van der Bilt, brother of the bride.
The bride's mother was a guest of
honour.

The groom's mother was a guest of

U. S. WHEAT GROWERS GET LUCKY BREAK

The United States wheat
growers have "the luck of the
Irish" this year. They have
harvested an 800 million bushel
crop in the first real seller's
wheat market in the world
wheat situation since 1897.

A. G. Black, chief of the U. S.
bureau of agricultural econom-
ics, remarks that by next year
the picture may change
completely. He said that in
order to produce dollar wheat
in world markets it had required
four successive very short
crops in the U. S. and five in
Canada, a crop failure in the
Argentina and two years of im-
porting wheat by the United
States to reduce world stocks.
A couple of years of normal
crops is a large part of the
world's producing area would
find the world price well within
a dollar, Mr. Black stated.

Chicago grain men think that
Russia may export 30 million
bushels of wheat this year, or
about the same as in the 1920-
21 crop year. Russia has a good
crop this year, but heavy losses
are being sustained in harvest-
ing operations.

FARM MARKET BOARDS HELD VALID IN B. C.

Victoria, B. C. — Controlled
marketing, after a brief lapse,
is again in effect in many branches
of B. C. agriculture. Justice A.
M. Manson of the B. C. Supreme
Court, halted the operations of
marketing boards by a decision
that the provincial marketing
act was invalid on the ground
that it infringed on federal juris-
diction. Immediately after-
wards, however, the Appeal
Court, to which the Govern-
ment submitted the act, ruled
that it was valid. Marketing
boards are now operating again,
on the basis of the Appeal
Court's decision, but this does
not end the dispute. It is ex-
pected that the question of the
law's validity will go eventually
to the Privy Council in London.

Premier Mitchell Hepburn,
who has announced Oct. 9 as
action day, is seeking a man-
date from the voters to pursue
his battle against the forces of
John L. Lewis and his industrial
unions. Mr. Hepburn has
forecast dark days for the indus-
trial life of the province if C.I.O.
organizers are permitted to
work unhindered. He has
pledged himself to see that they
are driven from the country.

London. — Significant of the
anti-war move in Britain is the
growing pressure being exerted
upon the Government to take
more active steps in the case
of peace.

FLAME LAMP ALIGHT UNDER AUTOMATIC ELECTRIC CONTROL

Dayton, Ohio. — Army al-
most studied the first successful
automatic landing of an air-
plane for its further develop-
ment toward a long-sought goal
of the air corps — complete
blind flying.

Engineers at Wright Field
hoped the blind flying apparatus
small enough to be "pocketed"
in a small-sized "locker trunk,"
might hasten the time when a
plane would be sent far distances
without a pilot.

A cargo-type plane was
brought down to a three-point
landing yesterday by means of
electro-mechanically operated
controls. The flight was con-
ducted by Captains Carl Orsini
and George V. Holloman and
Raymond Abbott, civilian project
engineer.

The device controls engine
speed, angle of descent, turning
and necessary "banking" the
officers reported. With the co-
operation of the gyro-plot, all of
the equipment was designed by
Wright Field technicians.

Moisture Begets Moisture

While not a new principle to students, the general public in the present generation has been misled by the fact that the moisture in the country is beginning to be regarded as a nuisance that moisture begets moisture. In fact, it is a natural process of the weather that moisture begets moisture in the atmosphere and so on and so forth.

ALIX, ALBERTA, FRIDAY, OCT. 1, 1931

CONFESSIONS

Editor Alix Free Press:

In his recent broadcast, "Purse About Banking," Mr. Knowles tries to hide the fact that banks create money, and take Mr. McCreary's statement was made, as chairman, to the shareholders of the Midland bank on January 25th (1931) as follows: "I am afraid the ordinary citizen will not like to be told that banks can and do create and destroy money. The amount of money in exist now varies only with the action of the banks in decreasing or increasing the deposits and bank purchases. Every bank, overdraft or bank purchase, creates a deposit, and every repayment of a loan, overdraft, or bank note destroys a deposit." He added "and those who control the credit of a nation direct the policy of governments and hold in the hollow of their hands the destiny of the people." The MacMillan report (see Times) says: "The money in a process of lending and paying out its amounts until such time as the credit created or investments purchased represent some times the amount of the original deposit of fifty cents." Mr. Knowles says that these deposits are liabilities in the bank books, and he thinks this destroys the truth of the statement. Of course a deposit is a liability for the bank to the public, but it is also a liability for the public to the bank. The two balance one another. Consider a bank's balance sheet. On the assets side are cash on hand, cash deposited with the central bank, loans to customers and securities. On the liability side are customers' current accounts and deposits, shareholders' capital and bank reserves. If the bank makes a loan or buys securities, they increase their customers' current accounts and deposits that is their customer's money. A bank lends, say to a producer in order that he may build a factory. The money passes via the manufacturer to the contractor's current or deposit account. These accounts are now money; he can use the balance of so many dollars have been released by the transaction. It is true that manufacturer's credit, and his capital, honesty, and securities is the basis of the loan, but he cannot use it unless it is mortgaged, and only a bank can so mortgage it, which it does, or does not, as it pleases. Banks therefore have a monopoly of credit and thus "hold the people in the hollow of their hands." Borrowers depend not only on the borrower's ability but on the general policy of the banks to loan him. If they restrict credit, as in 1929, money becomes scarce and prices fall. If neither not what else a borrower produces or grows, he must repay money, the one thing which he cannot produce, the creation of money being the sole monopoly of the banks, hence they control the destiny of the people, for if the banks do not choose to make enough money, debts cannot be paid, and the borrower are less their securities and are ready to make default. There is nothing visionary about it. The borrower's point of view, he puts up real, tangible security, in exchange for the loan.

The banks lend their credit, i.e., "promise to pay", and charge 2, 3, 4, 5% for their services in providing the public that they are lending real money which they can, and will pay in currency on demand. But what really is behind their promise to pay? 10% cash and 90 p.c. Public funds. Mr. Knowles says that besides the 10 p.c. cash, there are huge sums in other assets which can be converted into cash. But where is the cash to come from? There is only \$1-25 million in currency in all Canada, while the deposits amount to \$2,000 million. Mr. Knowles remarks that "the whole population is not going to show out it's account all at once." At last we have the truth, but if the whole population did so, p.c. would be disappointed. They who provide are to be done when he says "that of the fact that banks in practice keep about 10 p.c. of their deposits available to cash, has been developed the amazing distinction that we need our deposits ten times over!" Will Mr. Knowles declare that the English MacMillan Report is guilty of an amazing distortion when it states: "Banks can carry on a process of lending and purchasing investment

until such times as the credits created or investments purchased represent also shows the amount of the original deposit of \$1000 in cash." That is the truth. Mr. Knowles tells us that the banks merely lend \$100 of the \$1000 and keep \$900 in cash. That is not the truth, it is a lie. What they do, is to keep the \$100 in cash, and the 900 create credit, which they loan at interest or buy investments on which they collect dividends or interest "up to nine times the amount of the original deposit of \$1000 in cash," or ten times the amount as stated by Mr. Knowles. E. H. McLeod, M.A., a socialist, was selected by a Royal Commission to prepare a Digest on the law of credit and published a book "The Theory of Credit" running to 1000 pages, in 1907. This is quoted as one of the highest authorities on the subject. The page 85 in the foreword, it is constantly supposed that a banker's profit consists in the difference between the interest he pays for the money he borrows and the interest he charges for the money he lends. The fact is that a banker's profit consists exclusively in the profit he can make by creating and paying out a sum of the specie he has

in reserve. No Bank which issues credit only in exchange for money ever did, or by any possibility could, make profit. It can, begin to make profit when it creates and issues credit in excess of the credit it creates in exchange for money; when it begins to pay debts payable at a future time, for which it charges a discount; which, according to M. H. L. robbery and the whole of a banker's profit consists in the quantity of debts he can purchase with his own credit". The consequence is that banks "control the policy of governments and hold in their hands the destiny of the people". That is why the banks are so desperately anxious to hide the truth and why they pay Mr. Knowles a big salary in try to find the people.

The Facts About Banking in Canada

Reprinted from the Fourth Broadcast in a Series by Vernon Kennedy for the Chartered Banks of Canada and Delivered Over a Province-Wide Network of Alberta Stations on Tuesday Evening, September 26th, from 8:30 to 9:15, and Wednesday, September 27th, from 11:00 noon to 12:15.

Loans Made in \$7,500 Alberta This Year... Sixty Per Cent to Individuals... How a Bank is Formed... Shareholders Face "Double Liability"... Loans Regulated by Canadian People Through Parliament... Deals With Bank Services... 49,000 Shareholders Own Canada's Chartered Banks... No Concentration of Power... Tells About Alberta's Bank Depositors and Shareholders.

When you think of the fact of January and the fact of April, Canada's Chartered Banks are the only ones in the world that are not only regulated by the Canadian people through Parliament, but they are also regulated by the Canadian people through the courts. This is a unique feature of the Canadian banking system, and it is one that is not found in any other country in the world.

When the bank of Canada was established, it was the first bank in the world to be established by an act of Parliament. This was a landmark event in the history of the Canadian banking system, and it was a step that was taken to ensure that the Canadian banking system was under the control of the Canadian people.

JUNIOR WHEAT CLUB

The maintenance of quality in best production in Alberta is a matter of vital importance to the province. Probably the most successful plan yet devised to encourage the use of good seed is the development of the Junior Wheat Club. This undertaking is carried on under the supervision and direction of the Field Crops Branch, Department of Agriculture, Edmonton, together with the Alberta Wheat Pool in co-operation with the domain of government's National Council on Boys' and Girls' Clubs.

Guardian of  *Canadian Homes*

The Alberta Wheat Pool takes an active part in the work in the farm belt that surrounds the Winnipeg river valley. It is the largest wheat pool in the world and its headquarters are in Regina, Saskatchewan. The pool has a large staff of men and women who are engaged in the work of the pool. The pool is a very important factor in the life of the wheat growers of the province. It is a very important factor in the life of the wheat growers of the province. ALBERTA OIL MEN SEE NEED FOR EXPANSION

"Idley, Ala.—That the transportation in the present market for Alberta oil is nearly reached and that it will be necessary to find an outlet in Toronto and other cities of eastern Canada, is a fact which is being established with a "bought in" in the Tuxton Valley area south of Calgary. Should it go here, the strike which has been denied during the last two years the present market for Alberta oil will be greatly increased. The Tuxton Valley crude oil, now shipped to the Alberta Petroleum Storage Co., is of a better quality than the Canadian oil, and is sufficient to absorb the great quantities of oil being pumped daily from the wells. When the quantity of finding water reaches the limit, the Tuxton Valley oil will be found with the problem of high freight rates to carry their product out, but as the real miners of Alberta have been handicapped and unable to produce their oil, the Tuxton Valley oil will be the market of eastern Canada."

PROTESTS ON BEER PARLORS GROWING IN SASKATCHEWAN

Kyngon, South.—There is a growing protest against the operation of beer-peddlers in Nakhathawan, especially in those farm districts of the province where a majority of the people are living on relief, according to government officials. As a result, several of these taverns may be closed until a similar condition ceases.

Competition Shows Girls Are Better Writers Than Boys

Girls are much better writers than boys if a writing competition in which they entered is judged by Mrs. John C.worthy in memory of her late son, the famous short story writer. The winner of the contest was a girl named Mary Ann, who wrote a story about a boy and his dog. The judge said she had never seen such good writing before.

Five awards of \$50 each were given to girls. Not a boy figured in the highest awards. The prize of \$100 was won by girls. No boy won any of the secondary prizes there were ten prizes of \$50 each in the third grade.

The engagement of the pair was made by boys was not the main reason of the number of boys in competition. It was primarily due to the superior performance of the two of the first class prince chosen by girls from the Hyde County secondary school.—Toledo Star-Weekly.

Dr. William A. Calder, Harvard astronomer, checking up on the performance of a cosmic warner, finds him not so hot. He's sending out 20 per cent. less energy than he should for a star of his class. And not so bright, either. Only four-tenths of the luminosity generally accepted as standard for his class. "He's not the usual sort, astronomers know," meaning "pure dwarf star," meaning "yellow and of very low brightness."

Although medical science has advanced like everything else, the lack of medical services in rural areas is one of the greatest drawbacks in the country to-day. The population here becomes more urban and less rural in general character and it is obvious that, with greater territory to cover and more time con-

lens to attend to the needs of the country than of the city. There is one doctor for every 700 or so people in the large cities, but only one for every 1,500 in the country.

In England and Wales there is only one doctor in 1,200 of the population and in France one in 1,300.

very advanced social service countries. In the United States there is one medical man in 750, whereas in Australia there is one in 1,275. About ten per cent. of the Canadian doctors were born, though not necessarily educated, outside of Canada—500 per cent. in the British Isles or other British countries and 24 per

VICKS

Provincial Amalgamation

After the Board Commission on Dominion-proposed amalgamation in that Western Canadian provinces was brought to a close, it was found that the province of Alberta, which had been the only province to have a referendum on the subject, was in a position to be the only province to have a referendum on the subject.

It was found that the province of Alberta, which had been the only province to have a referendum on the subject, was in a position to be the only province to have a referendum on the subject. The province of Alberta, which had been the only province to have a referendum on the subject, was in a position to be the only province to have a referendum on the subject.

While admitting that the province of Alberta, which had been the only province to have a referendum on the subject, was in a position to be the only province to have a referendum on the subject. The province of Alberta, which had been the only province to have a referendum on the subject, was in a position to be the only province to have a referendum on the subject.

As a matter of fact, the province of Alberta, which had been the only province to have a referendum on the subject, was in a position to be the only province to have a referendum on the subject. The province of Alberta, which had been the only province to have a referendum on the subject, was in a position to be the only province to have a referendum on the subject.

But, however, with the province of Alberta, which had been the only province to have a referendum on the subject, was in a position to be the only province to have a referendum on the subject. The province of Alberta, which had been the only province to have a referendum on the subject, was in a position to be the only province to have a referendum on the subject.

When the province of Alberta, which had been the only province to have a referendum on the subject, was in a position to be the only province to have a referendum on the subject. The province of Alberta, which had been the only province to have a referendum on the subject, was in a position to be the only province to have a referendum on the subject.

On the one of it, it would seem likely that amalgamation might result in the province of Alberta, which had been the only province to have a referendum on the subject, was in a position to be the only province to have a referendum on the subject. The province of Alberta, which had been the only province to have a referendum on the subject, was in a position to be the only province to have a referendum on the subject.

Limiting Auto Speeds

Ascent of Mount

Chief Problem
The chief trouble with automobile traffic these days is that the automobile engineers have gone too far in making cars so fast that they are out of the average driver's grasp.

In 1932 J. M. Goody, an American safety commissioner, in a plea for more safety in the automobile industry, told the manufacturers to limit speed to 70 miles an hour.

As things stand, Mr. Goody would not be far from the mark. It is enough faster than the average road car safely accommodates it, and also

campaign, and here so close to summer that it is almost too late to get started. Let us do it with enthusiasm, with courage and with a healthy joy. Instead of one of us in the chair, twenty years of business effort, business, content; before us is the beautiful time which has opportunities yet unexplored, and which we have to receive and conquer with the help of God.

There is no agreement as he suggests can ever be obtained in, perhaps, doubtful. But his proposal does turn on one of the most important aspects of the highway safety problem. Victims Thank.

C.N.R. COACH RECOMMENDATIONS BOOTH RAILWAY TRAVEL

Montreal—Lovers have much occasion between Canadian cities and towns are doing much to stimulate railroad travel, over half a million persons moving by this means over the Canadian National Railways during 1934, according to G.W. Johnson, General Passenger Traffic Manager of the company. The statistics show it is not new to Canada, stated Mr. Johnson, but in its present application the bargain travel plan has gone further than ever before, the result being to bring hundreds of thousands of people to the railway for short coach trips. "These coach excursions have fostered a community spirit by encouraging people to visit centers which they perhaps have never seen or have not visited for many years, affording the opportunity to travel cheaply, safely and in comfort to the sightseeing and visitation and friends," stated Mr. Johnson. Hundreds of coach excursions at various times were operated last year by the Canadian National Railways, carrying a total of 52,274 passengers from stations to stations throughout various parts of the Dominion and across the international border. Of these, 24,611 were carried in the Western Region.

GRIZZLY INCREASE IN CANADIAN WILDERNESS AREA

Jaeger.—As a result of the Government buy back on grizzly bears are now allowed only one bear—the animals are increasing in the Canadian Rockies. In 1934 Fred Brewster speaking particularly for the country adjacent to Jasper National Park. Brewster has been known for many years for his resistance of big game hunting opposition on the outskirts of Jasper and for his work of making the boundary of the Park known to tourists. During September and October, he said, at least 25 hunting parties went out from the Jasper area and brought back splendid specimens of sheep, goats, moose, caribou, deer, grizzly and black bear. Contrary to what is often believed by folk who dwell in the cities, the grizzly is not on the offensive against man, Fred Brewster says. If he will leave him in powerful power, and men have been killed when they surprised and frightened a mother with cubs, but a grizzly will not attack a man without provocation.

WINKLER KING
 Calgary, — Wholesale-groving is now a popular sport in Little Chicago, bustling Turner Valley all town. It is compulsory until Feb. 28 when a "whisker king" will be crowned at an inaugural.
 A "whisker king" has been designated to deal with visitors. One man who shaved was fined \$10.
 "I had a date with a Calgary girl," he explained to the court, but he failed to gain sympathy.
 Regina, — \$200 to assist independent charged against a member of the federal district court in the federal district court was sentenced to the Saskatchewan Penitentiary Friday by Hon. E. J. M. Parker, minister of justice.
 The conviction will follow residence of rural municipalities of responsibility for removal of dried rot distributed between Sept. 1, 1926, and August 31, 1927, in the federal district.

Is cash money under Canadian farming conditions calls for a change of power, the power of the tractor. It is the power of the tractor that has made the farmer a more efficient producer, but proved production and proved economy... not merely operating costs when new, but TOTAL and over many years. Hundreds of reports by owners of Case tractors in 10 years old show that Case has cut power costs to the lowest levels in tractor history.

CHRISTIAN SCIENCE

At last Christian Science Churches next Sunday, the subject of the Lesson-Service will be "Daniel Jezebel." The following is one of the Scriptural quotations contained in the Lesson-Service: "Jezebel answered and said unto them, Go and show John again those things which he do hear and see: the hand receive their right, and the lame walk, the leprosy are cleansed, and the deaf hear, the dead are raised up, and the poor have the gospel preached to them. And he went in to her, who is now dead, and he was in her." (Matthew 11:1-6) One of the narrative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is as follows (page 124): "The vision of Jezebel manifested prophetic, and explained the so-called miracles of other time as natural demonstrations of the divine power, demonstrations which were understood. Jezebel's works established her claim to the Kingdom. In reply to John's inquiry, 'Art thou he that should come?' Jezebel returned an affirmative reply, recounting his works instead of referring to his doctrine, confident that this violation of the divine power to heal would fully answer the question."

The people of Arkansas are appreciative of flood conditions even greater than those of 1926. Many are already leaving their lowland homes for higher ground as rivers rise and spread over the valley lands.

MIRROR NEWS

Talk about money scarcity when there is \$2,500,000 lying in Canadian banks unclaimed for five years. If the claimants do not come forward within a specified time the money is forfeited to the Federal Government. We protest against the Dominion government buying this amount. It ought to be divided among the different provinces, each province receiving the amount unclaimed within its own boundaries. There are 70,000 names on this list, scattered all over Canada.

At the recent Synod of the Anglican Church held at Calgary the following resolution was passed: It was decided to ask the Alberta government to clarify the section of the Marriage Act pertaining to the calling of banns of marriage in rural parishes where sessions are not held on consecutive Sundays. At present banns must be called on four consecutive Sundays.

Reports are coming down from the North country in the effect that the Indians are starving. The minister of the Interior says that agents of the different reserves have full authority to supply the Indians with what food they need during the winter. Old men of the tribe assert that the present generation of young Indians are "too soft" to take up the trial of meat supplies in the far north.

Friends often asked Marie Curie why she never married. "There is no need," she would reply, "for I have three pets at home which together answer the same purpose as a husband. I have a dog which grows all morning, a parrot which repeats all the afternoon, and a cat which comes home late at night."

THE WORLD OF WHEAT

By E. L. L. Strange

"There is not a single country where the entire population enjoys a standard of nutrition adequate for the maintenance of health." This is the conclusion just arrived at by the Special Nutrition Committee of the League of Nations. The John G. P. Committee of the World's greatest expert on nutrition last year came to the same conclusion. "Millions are underfed," he said. Farmers are eager to supply the extra feed needed by city people, in return for which city people are eager to supply the additional food and commodities which farming people so badly need. Why are not these simple exchanges taking place? Some say it is because the "Capitalist System, the Trust System, the method of Distribution and Marketing of Transportation and of Banking have broken down; but this can't be, for all these various and numerous must ever be brought about the needed changes. In my humble opinion it is actually the Monopoly of the World over that has broken down. Those in charge of our affairs, by means of high tariffs, quotas and other restrictions are making the exchange of farm products for city goods, feeling, apparently, that the two are all bad and not knowing the more we shall all have. What a sad and pathetic failure! If it were not so tragic it would be just pity."

Canada is India's second best customer for tea followed in order by the United States, Ceylon, Rire, Iran, Australia, and Soviet Russia. The United Kingdom is the principal buyer. Surprisingly enough, India is the largest producer yet the smallest consumer of tea in the world.

At last Christian Science Churches meet Sunday, the subject of the Lecture-Prayer will be "Man". The following is one of the scriptural quotations recited in the Lecture-Prayer: "For in him we live, and move, and have our being; as certain also of your own poets have said. REPORT HAIL BOARD

MAY NOT OPERATE

Calgary—Unless part of a guarantee of the provincial government is implemented it is unlikely the Hail Insurance Board of Alberta will operate in 1930, according to the annual report issued here Tuesday. The board suspended operations last year when it was refused credit by its bankers.

Failure of the Alberta government to meet promised legislation halting the operations of the board in 1927, says the report, it adds:

"To get a line of credit for 1928 the government gave an undertaking to the bank that adequate steps would be taken to place the board in a sound financial position to continue operations and the necessary legislation would be introduced at the next session."

"The necessary action has not yet been taken. The board is unable to improve its financial position and further credit was refused."

It was indicated the board could have operated last year had the government paid the bank \$50,000 to supply on a debit of \$30,000 which had been guaranteed by the government.

David C. Anderson, of Edmonton, has been appointed commissioner for 1930.

CHURCH LINK WITH U.S.

Windsor, Ont.—Canada and the U.S. should form a democratic defense league to guard North America against the onsets of European and Asiatic nations, Archbishop F.G. Scott of the Anglican diocese of Quebec said in an address here Monday night. The famed warlike chaplain of the Canadian corps named specifically Germany and Japan as countries whose "outrageous glances" were cast upon Canada.

The U.S. he said, had reason to suspect Japanese fishing vessels have guns in their holds capable of firing from 25 to 30 miles. What chance, he asked, could Vancouver and Victoria and other B.C. coastal cities have against such armaments when Canada has but four dear little destroyers.

Recently Germany had sent its bay Antivert Island, key position to the Great Lakes, but its engineers returned home to report the island was too far into.

"I do not want to say anything that will stir up war hatred, yet not long ago a book was published in Germany by a man called Douglas which said a good piece for German colonization was in Canada," the Quebec cleric continued.

The R.C. priest, Archbishop Scott said, "is in very grave danger at the present time because of the Japanese menace." It contained large statements of Japanese who "work for lower wages than the white man and operate not only in Canadian waters but right up into the Alaskan waters."

"The U.S. is aware of their hold on fishing and other industries. Many villages far inland in B.C. are entirely Japanese."

"Suppose war should be declared by Japan against England which has been hinted by some high officers—it is quite possible Japanese ships now coming within beyond the 10-mile limit have gone underneath their decks like the mystery ships of war days."

"Suppose England's ships are tied up, which is quite possible. It is a terrible thing to think of that the largest Japanese ships would only be opposed by our four dear little destroyers and that the Japanese ships might be able to shell from a range of 25 or 30 miles."

Who Owns the Assets of Life Insurance Companies?

Answer. — These assets are jointly owned by more than 3,500,000 policyholders — men and women who constitute one-third of Canada's population.

Question.—What is the average share of each policyholder in these assets?

Answer.—About \$571. This shows that Life Insurance Societies are made up of the savings of millions of thrifty men and women.

A.—What is the nature of Life Insurance funds?

A—They are trust funds held by the Life Insurance companies to pay policy claims as they fall due.

• How are these funds loaned?

A—In loans to governments and municipalities—for building homes and schools—for improving farms—for constructing good roads and transportation systems—for developing

Q.—To what extent does Alberta share in such investments?

A.—More than Ninety Million Dollars of Life Insurance funds are invested in this Province.

This is the third of a series of messages, sponsored by Life Insurance Companies operating in Canada. The fourth, to appear in the November 1977 issue, will be the last.

FRIDAY, MAY 10, 1935

The Provincial Government is making a big effort to raise money by imposing new taxes claiming that Industry, Business, and our small business owners are not paying enough. Mr. Abernethy says he wants to remove taxation on land and place the difference from business and industry. This is a well justified suggestion, that even amateur legislators would find this time have found who is really the one that pays taxes in Alberta. They ought to know by this time that the Consumer is always the final. Suppose he succeeds in shifting tax from land to business. What will happen? Prices will go up, wages will go up and Mr. Fairbairn will find himself, as business owners, paying more in taxes to the Government. And that's that.

We think the Province Government would be well advised to submit their proposals to the electorate. After having five or six of their most important bills disallowed they must be aware that future efforts along the same lines will be futile. If they can prove to the Dominion Government that they truly represent public opinion in Alberta it will go a long way to be admitted to a share in Social Credit privileges. And if they fail demonstrating what they claim is their God-given mission they have no right to govern any longer. They were elected on a clear understanding that they would reduce taxes and pay dividends. If it cannot carry out this promise owing to conflicting laws, the Alberta electors have no further interest in them as a party.

The resignation of H. Bennett from the leadership of the Conservative party will be regretted by many members of that school who are in favour of high protection. The Conservatives are fast losing their grip in Canadian politics and it seems to be only a fragile memory to those who pile fortunes through tariff work and made big money by exploiting the consumers of the west. His successor, the party wishes to survive, said Mr. Harry Stevens, who is far the most experienced progressive man available, has the courage of his convictions and good executive ability and is a real leader. With man like Stevens, the party may survive a few years but otherwise they may "R.L.P." after the official name of the party.

In a speech in Edmonton recently, on behalf of I.R.C., shall, the candidate in the Edmonton by-election, Ian McKinnon, of Vancouver, told his audience that the country had saved \$14,000,000 already as a result of its re-financing of the national debt. In another paragraph was the announcement that the Liberal government was all in favor of C.I.R. retaining its ownership of C.N.R. These two items

The public Annual Sale of Mrs. Beatty's will take place on March 15, at the old Phil Ferguson farm, N.W. corner of 22nd and Broadway. We understand the Beatty family is returning to B.C., where it is desired to give the Bechtelowsky distillery. During their residence here for the past six and half years, Mrs. Beatty has made many friends in B.C. Mrs. Beatty has been a devoted worker of the National Order of Aids, and her services will be greatly missed. Henry goes with the remainder of the distillery and returns to their new home. It is of every hoped Mr. Beatty will be greatly benefited in health in B.C.

Margarine, an edible substitute for butter, as prohibited in Canada, is a contrast to those any which produced 417,000 tons of margarine in 1929. The United Kingdom with 120,000 tons and the United States with 170,000 tons were the next largest producers of this substance in the world in 1929.

During the production of the Japanese war exports of flour and wheat from Canada to China have been affected for some time. In 1929 Canada shipped 75,000 barrels of wheat flour and 115,000 barrels of wheat to China. The amount exported in 1927 was 60,145 barrels of wheat flour and no wheat.

CANADIAN LEGION BROADCAST

The Provincial Command, in putting on a series of Broadcasts, giving information relative to returned men's affairs, and inviting all on active men who are not members, to join with their comrades in the Canadian Legion, BEAL.

Comrade Walker, the President, is anxious that all returned men should know what has been done towards helping the ex-servicemen and their dependents by the Legion. He is intending the broadcast to be rather in the nature of a Round Table Conference, where those attending will ask the questions and answers will be given. He believes, and the Committee agrees with him, that this will be more interesting than just a straight statement.

The Broadcast will be immediately following the Texaco News Broadcast; that is from ten minutes past ten till twenty-five minutes past ten. Following the first broadcast there will be one each alternate Friday, at the same time, until the end of April.

If any matters which on servicemen are interested in, are not taken up, during the series of broadcasts, a further one will be arranged, to answer any questions received from those interested.

The Broadcast will be over Station C.F.R.L., the Voice of the Prairies, Calgary. This, we believe, is the most powerful station, and will reach the whole of the Province, and we know from reports we have received, that the Texaco News Broadcast is listened to by a majority of the people having radios, so that there should be no question of our information reaching all those who are interested.

Events of the past week in Alberta has proved, without a doubt that Brazil has NOT got a monopoly in nuts in the Lethbridge by-election, with a Unity Candidate in the field, and a straight fight between two parties, the Unity Candidate won with a clear majority. In the East Edmonton by-election, the Grice got snooty and thought they were able to carry on under their own power Result: Failure. The results of the two elections prove that in a straight party fight the Social Credit party is vulnerable, but in a free-for-all scrap they are still a power to be reckoned with. The lesson is obvious: In Unity is strength, and that goes for Alix, too. The same principal applies to business as well as politics.

Hon. Mr. Dunning, Minister of Finance, tells Farmers' Credit Advancement Act "a big head-scratcher."

A MESSAGE

To the Members of the Central
 Alberta Dairy Pool

Your Pool began business on March 2nd, 1936, with 100 members, without any capital, no debentures, no shares, no valued stock. The record since then is interesting.

From March 2nd, 1936 to December 31st, 1936 you had 11,000,000 pounds of butter. During the last 12 or 18 months you had in setting a high total price for cream. Notwithstanding this, you received \$14,947.00 in cash surplus and accumulated \$94,000.00 in Participation Equity Reserve, of which about \$10,000.00 was refunded to you in 1936 and '37.

Some of the Participation Credit was used to pay for the plant; some was used for working capital; and some was used for interest and some of it was used for extension of the plant.

During 1936, with a making nearly two and a quarter million pounds of butter the total charge for interest, exchange on accounts and charges was only \$4,179.35 and accounts was about two-thirds of that.

Besides cash surplus and participation amounting to \$94,000.00, there were further reserves for depreciation plant reserve, members' shares and surplus carried forward, totalling around \$60,000.00, so that you had profited to the extent of \$150,000.00 in ten years. At the end of 1936 the situation was briefly this:

1. You owned the milk creamery in Western Canada.
2. Connected with it was a series of cold storage rooms (with a capacity of 700,000 pounds of butter) of a construction unsurpassed anywhere in the country.
3. You had 300,000 pounds of butter in those rooms, and a rising market.
4. You had about \$6,000.00 surplus carried forward.
5. You owned a well-established distributing agency in Vancouver which was more than paying for itself, actually producing a surplus. This agency was the key to the whole marketing problem.
6. You did not owe anybody a dollar.

On April 1st, 1936, a new manager was installed and within a few months a new policy was put into effect: a policy which has proved progressively successful.

The business underwent the first year under the new policy, and is

in a precarious position at the end of the third year.

A business established as firmly as yours was at the end of 1934 will carry on under its own momentum for a while and will stand considerably rough treatment, but there is a limit—it will be wrecked.

In 1935 you made about 700,000 pounds of butter less than in 1934. The main reason being that you did not maintain a high enough initial price for cream. You got a cash surplus of nearly \$65,000.00 at the end of the year which looked very good to you, but where did it come from?

Well, the 300,000 pounds of butter in storage at the end of 1934 which had been profitably stored made a profit of about \$15,000.00 on a rising market after the turn of the year.

The \$5,000.00 surplus carried forward on Balance Sheet along with about \$5,000.00 carried in reserve for uncollected participation certificates authorized for payment but eliminated on the 1935 balance sheet made another \$10,000.00.

Altogether about \$80,000.00 of the \$145,000.00 paid originated from accumulated surplus and was a big help in paying that top-heavy bonus, which was originated partly from under payment for cream throughout the year.

At the end of 1935 the picture was not so rosy. True enough, your directors voted a bonus, but you didn't get it. You haven't got it yet. A resolution in a directors' meeting does not produce amounts of money like that; out of the air. It has to be earned in business.

I do not know what your directors did at the end of 1937, perhaps they didn't vote a bonus but you know about that better than I do.

Meanwhile you have reached out into the expanded milk business and bought considerable acreages of no benefit to you. One is in the Calgary Pool district and the other on the borderline. I say "you" because it is the directors whom you appointed to act for you who have done it.

You have also dropped some \$15,000.00 by buying and handling butter from various small creameries, advancing money without the simple provision in the security under Section 80 of the Bank Act, when you acted as Bankers to the creameries.

The evaporating plant at Red Deer might have been a good move if you had had sufficient money to properly equip it and carry on the business, but you equipped that plant to quite an extent with a lot of second hand obsolete machinery and have made and sold milk at a loss, which is not common sense business, at the same time robbing your Alix plant of the high grade cream produced in that area, which was so essential to maintaining a high quality of butter at Alix.

Also, you have let go your Vancouver selling agency—the very asset you should have kept, because that was the means by which you made your surplus in the past.

Your present system of selling butter is to get a telegram every morning containing the price which says it telling you what it is worth. Such a system shows a child-like confidence on the part of your directors. You should at least have

a disinterested broker or broker give you the sales.

I have shown you what you had at the end of 1935. What have you got now?

A Bank loan hanging around your neck that is a problem and worse than that you have a run-down business which is still requiring super-human effort to salvage. The time has arrived when you should use your vote and set your house in order for progress.

In conclusion I wish you all success in the task before you. Three years ago your co-operative movement was a shining example for the whole of Canada. I have faith in the Farmers of Central Alberta that they will yet show the stuff they are made of.

Best regards to all.

Your co-ordinator,
 (Signed) H. A. Laramie.

To the Members of the Central Alberta Dairy Pool

Yong Pool began business on March 2nd, 1936, with 135 members, without any capital, no debentures, no shares, no valued stock. The record since then is interesting.

From March 2nd, 1936 to December 31st, 1934, you made 11,809,661 pounds of butter. During the last 2 or 3 years you led in setting a high initial price for cream. Notwithstanding this, you received \$146,747.60 in cash surplus and accumulated \$64,323.92 in Participation Equity Reserve, of which about \$15,000.00 was refunded to you in 1935 and 34.

Some of the Participation Credit was used to pay for the plant; some was used for working capital to avoid paying interest and some of it was used for extension of the plant.

During 1934, while making nearly two and a quarter million pounds of butter the total charge for interest, exchange on coupons and cheques was only \$4,172.35 and exchange was about two-thirds of that.

Besides cash surplus and participation amounting to \$204,770.52, there were further reserves for depreciation, plant reserve, members' shares and surplus carried forward, totalling around \$60,000.00, so that you had profited to the extent of over \$700,000 in ten years. At the end of 1934 the situation was pretty rich—

1. You owned the best creamery in Western Canada.
 2. You carried with it a series of odd storage rooms with a capacity of 700,000 pounds of butter of a construction unsurpassed anywhere in the country.
 3. You had 200,000 pounds of butter in these rooms, and a rising market.
 4. You had about \$5,000.00 surplus carried forward.
 5. You owned a well-established distributing agency in Vancouver which was more than paying its way, actually producing a surplus. This agency was the key to the whole marketing problem.
 6. You did not owe anybody a sou.

On April 1st, 1936, a new manager was installed and within a few months a new policy was put into effect: a policy which has proved progressively unsuccessful.

The business weathered the first year under the new policy, but it

in a precarious position at the end of the third year.

A business established as firmly as yours was at the end of 1934 will carry on under its own momentum for a while and its own consistency will rough treatment, but there is a limit—it can't be treated.

In 1935 you made about 700,000 pounds of butter less than in 1934, the main reason being that you did not maintain a high enough initial price for cream. You got a cash surplus of nearly \$45,000.00 at the end of the year which looked very good to you, but where did it come from?

Well, the 200,000 pounds of butter in storage at the end of 1934 which had been thoughtlessly stored made a profit of about \$15,000.00 on a rising market after the turn of the year.

The \$5,000.00 surplus carried forward on Balance Sheet along with about \$4,000.00 carried in reserve for unadvanced participation certificates authorized for payment but eliminated on the 1935 balance sheet made another \$15,000.00.

Altogether about \$100,000.00 of the \$45,000.00 paid originated from accumulated assets and was a big help in paying that top-heavy bonus which also originated partly from under payment for cream throughout the year.

At the end of 1935 the picture was not so rosy. True enough, your directors voted a bonus; but you didn't get it, you haven't got it yet. A resolution in a directors' meeting does not produce amounts of money like that; out of the air: it has to be earned in business.

I do not know what your directors did at the end of 1937; perhaps they didn't even vote a bonus but you know about that better than I do.

Meanwhile you have reached out into the expanded milk business and bought a couple of creameries of no benefit to you. One is in the Calgary Pool district and the other on the borderline. I say "you" because it is the directors whom you appointed to act for you who have done it.

You have also dropped some \$13,000.00 by buying and handling butter from various small creameries, advancing money without the simple security of the security underwritten by the Bank of Canada, when you acted as Bankers to the creameries.

The evaporating plant at Red Deer might have been a good move if you had had sufficient money properly equip it and carry on the business, but you equipped that plant to quite an extent with a lot of second hand obsolete machinery and have made and sold milk at a loss, which is not common sense business, at the same time robbing your Alix plant of the high grade cream produced in that area, which was so essential to maintaining a high quality of butter at Alix.

Also, you have let go your Vancouver selling agency—the very asset you should have kept, because that was the means by which you sold your surplus in the past.

Your present system of selling butter is to get a telegram every Monday morning from the man who buys it telling you what it is worth. That is a waste shows a child-like ignorance on the part of your directors. You should at least have

a disinterested broker or broker give you the value.

I have shown you what you had at the end of 1934. What have you got now?

A bank loan hanging around your neck that is a problem and worse than that you have a run-down business which it will require super-human effort to salvage. The time has arrived when you should use your vote and ask your house in order for progress.

In conclusion I wish you all success in the task before you. Three years ago your co-operative movement was a shining example for the whole of Canada. I have faith in the farmers of Central Alberta that they will yet show the stuff they are made of.

Best regards to all.

Yours co-öperatively,
 (Signed) H. A. Loomis.

LOCAL AND OTHER ITEMS OF GENERAL INTEREST

Here-On April 6th, to Mr. and Mrs. George Thompson, at their home west of town, a son.

There will be a Banquet meeting in the Legion Hall on April 11, at 8:30.

Mr. E. Harty is recovering from the appendix operation, which has undergone last but not least recovery.

The subject of Mr. Wainwright's surgery on Sunday will be "When the World Applauds" Service at 11:30.

According to a new ruling by the post office authorities, all post offices will be open on legal holidays, except for one hour. The local post office will be open from 9 to 5 a.m. Keep this in mind and carry on.

The conditions met by working a long schedule and get lost. The conditions we are having now should have made it impossible to get lost. The conditions that prevailed in March made it impossible to get lost. The conditions that prevailed in March made it impossible to get lost.

Mr. Bert Brown has sold out the Alex Co. to Mr. E. H. Brown. One of our local boys, who was formerly with Wainwright, Mr. Brown is not prepared to make any announcement as to his future action. Mr. Brown has a large stock of friends in Alex and district who will be pleased with the advent into the city of business men in this community. The last of winter.

Our correspondents are in a uniquely heavy time, owing to there being no train on the Laramie Road last Wednesday. Wednesday is the day for many correspondents to send in their news items. However, we do not have anything very odd and little news items are likely to happen any day. It is better to get too much news than to be a dunce after the close.

The Old Ladies are held at work on their regular course. The Old Ladies and the Prisoners' Club is to be produced in the Legion Hall, April 13th. If you like noisy times and lower pretty costumes, newspapers, only take and plenty of money, put the date down in your program, April 13th, and show to be a dunce after the close.

The Talent show was held on Monday, April 4, and was well supported. A number of old members and youth. Twelve contestants who were to take part did not arrive here, others who were here did not. The most number of votes went to Mrs. Mildred Wainwright of Elberta, with Clifford Anderson coming a close second. Third place went to the Bluebird Trio from Edmonton.

WAGONS CHURCH.
The regular meeting of the Village Council was held on Monday evening, with Mackie and Wainwright present. Minutes of previous meeting along with financial statement read and approved.

The accounts were presented and adopted. Mr. O. Russell moved that we borrow \$100 from the Royal Bank. They said.

Charles, ordered Resolution to be made and to James's family for \$100 for the same time. The resolution was passed. Mr. J. H. Russell moved that we borrow \$100 from the Royal Bank. They said.

WEDDINGS

MATTHEY-MORRISON

The chapel room of the Northern Hotel was the scene of a very pretty wedding Saturday morning, when Miss Lucie Morrison of Hays, Sask. was united in marriage with Russell Matthey of Alex, B.C. The bride was attended by Miss Mary White, of Hays and the groom by his brother, Charles.

While the ceremony was being performed Miss Edna Stewart sang a solo.

A beautiful dinner was served in the college dining room in the afternoon and guests.

Mr. and Mrs. Matthey will also give a missionary tour next summer.

Miss Whitford Matthey returned to Hays on Tuesday after spending the week-end with her parents and attending her brother's wedding.

TELE TATTLING

(The Last of last week)

Mr. Marshall got into a new company on his trip to Calgary last Saturday. He was in the last of last week and took in the last three and a half days. We think there must be some extra there to see how he is.

Mrs. J. Harty left last Monday for the college dormitory in the afternoon and relatives.

Mr. and Mrs. W. G. Ferguson and Mrs. Harty, both of Hays, B.C., where they expect to visit for a month or more.

The following visited Laramie over the weekend to take in all the happenings. Mr. Harty and Lillian, Mrs. G. Marshall, Mr. and Mrs. Hoffman and Shirley, and Mrs. H. L. Lammie. I believe Lillian had better take her mother with her for a visit.

Mr. McDonald held a party Saturday night in honor of Mrs. Harty's 35th birthday. The night was attended and all reported a very pleasant and enjoyable evening.

The Young People's meeting was held in the Church on Monday evening, March 13, with a large crowd in attendance. After business was transacted, the meeting was opened up with very good musical selection and singing. Mr. A. W. Phillips rendered several selections on the piano which were enjoyed by everyone. A delicious lunch was served by the ladies and the program closed with a song.

Mr. Ken Montgomery was in Hays on Monday night with his mother. He is at present a patient in the Royal Alex hospital.

Ed and Mrs. Betty and Bob left on March 11 for their new home in Kamloops, B.C.

Mr. J. H. Russell moved that we borrow \$100 from the Royal Bank. They said.

COMMUNICATION

EX RESSION

WEST FROM EAST

Dear Editors—One knows much
criticism of the Eastern and Western
Provinces. It is claimed Eastern
Canada benefits immensely at the
expense of Western Canada. With
this version we will agree. Politically
we are dominated by the East. In-
deed, we are exploited by the
East. Social conditions and re-
ligious questions arise in the East
which are not conducive for ex-
citement between the East and the
West. A gulf has arisen between us
which cannot be bridged except at
our expense. Dupre and Hapman
bring forward questions which we
may not ignore. Our Province
does not seem to have become a part
in the hands of mighty industrialism
and high finance. Canada with all
its inalienable resources, has settled
into the rut of apathy, resulting
from the disintegration of our con-
cept of democracy and British
parliament. The latter something
which we cannot tolerate if we must
continue to exist under the present
system. Many of us may not be in
favor of the Capitalistic form of
Government. Nevertheless we be-
lieve that there is not another
country in the world of Capitalism with
more benefits than we citizens of the
British Empire. Therefore it behooves
us to safeguard these benefits until a
new system comes into force for our
mutual advantage. Our greatest
danger to-day is Facism which
threatens the East far more than our
Western Province. This propaganda
is favored by East Province agents
who take advantage of our political
and religious antagonism, to benefit
themselves detrimentally to the
British Empire. Our population
under an appreciable advance, within
our vast natural resources and
various producing industries such as
lumber, agriculture etc. suggest, money
on account of the ambitious
nature of our political opposition.
We have also Provincial Govern-
ments (who agree not to agree) whose
legislation must not transgress
Dominion laws irrespective as to
whether our antiquated Dominion
laws are right or wrong. We are faced with
the evidence of Provincial and Dominion
debates which at least provide Com-
mittee and legal deliberation with
simple and direct and will do as
long as we have the right of
elect. A change in Government
Policy can bring immeasurable
benefits to this country. On account
of the previous from these advantages
which are not quite enough to
offset the inevitable.

We do not wish to see such a
catastrophe within our country and
we may affect this catastrophe by our
action and thought. The writer be-
lieves that the future of the four
Western Provinces from British
Canada is the only alternative,
bringing into existence, (New Britain)
a member of the British Common-
wealth, a progressive and prosperous
unit of the Empire with a political
and progressive Government. I ask

for your consideration of the propo-
sition and hence deriving from the
following suggestions which would
give us a brighter future whilst re-
taining our present system.

We should have a Government
based on the same principle as our
present Government. This should
give us approximately seventy two
members. With Edmonton as the
capital place for these members, it
being central. Free trade between
English speaking countries, Free
trade with other countries to the ex-
tent of equitable tariffs and imports
with protective tariff on goods over
and above equitable exchange. In-
teractive immigration policy con-
sisting on English speaking coun-
tries. Abolition of present municipal
and school tax system, replaced by
equitable sole tax system. This
would place preference on all available
and enable lands now situated in the
present chaotic and unproductive
system by centralization, also giving
us an intensive building impulse re-
turning and in city. A mature
constitution functioning for the com-
munity's benefit. We should
promote unity between the members
of the British Empire and ourselves.
Compulsory teaching of
English in all schools. If the
United States is given right to free
world's dominion, also should be
good enough for us citizens. War
power and internal rights controlled
by the state. Freedom of speech,
freedom of the press, inherent
right to assemble and free religious
rights. Right control and suitable
taxation system on all natural re-
sources. Immediate construction of
Peace River canal to coast, which
would ensure development of its vast
resources. Free trade would result
in farm implements, reduction of
automobile, tobacco goods at
approximately one third reduction.
Gasoline and crude oil price reduction.
There would result in a great influx
of immigrants, also the absorption
of our unemployed. With our Natural
Resources, timber, minerals, oil and
agriculture, etc., we could have
forward a population equal to the
present Dominion within twenty
years. Try and visualize land values
and business properties jumping by
leaps and bounds. The enormous
losses of money circulation, incorpo-
ration of money, building industries
and with an open seaboard the year
round we could forget the East and
its warlike. We could have all the
material benefits with many others
even under our present system, with
certain money restrictions, many
present evils eliminated, an annual
prosperity for an indefinite period.
Therefore to many objectives to
convert West from East. For
other reasons. Our Provincial
Governments and their handmen,
would-be politicians and job hunters,
will tell us we are too weak and in-
capable of self-reliance. I say it is
necessary to bring before a new
constitution, 100 per cent patriotic
with British sentiment and traditions
retained inviolate. A united people
with the goal of prosperity, happiness
and in view. Yes, we can, we will
do it.

Send us in that new time.

A man named Piddington has been doing some writing on a new lay out for Great Britain. As England is getting tired of the continued war in Europe and constant fear of attack, he is suggesting that Canada be made the seat of Government for the British Empire by moving the bulk of population over here at the rate of about a million a year. With the ordinary Englishman and Scotchman we have no objection, but we would not like to see the mob class imported into our country. Leave the dukes, earls, lords, etc., across the Atlantic. There is no place in Canada for people who believe in class distinctions. The only real aristocracy is the aristocracy of mind.

CONCERNING CORRESPONDENCE

Concerning correspondence published in the Free Press, we are going to lay down a few rules. Correspondence is always welcome. We want our readers to feel that this is their paper and that they can express their opinions on any subject of public interest. But there are a few rules that must govern such correspondence. No personalities are allowed; we will not engage in any religious controversy; disrespectful references to the deity will not be tolerated; all correspondence must be parliamentary in language, and particularly all scandal must be avoided. Use discretion in expressing your opinion of opponents, and above all keep your temper; nobody ever won it. You do not have to publish your name, but you must send it to the editor, along with address, so a gentleman of good faith.

SPORTING EVENT AT PINKA

SIXTEEN ENTHIES—ONLY ONE KNOCK OUT

On Wednesday, April 23rd, at Pinka, a Boxing Tournament was held. It was one of a series to determine the boxing championship of this province.

In this event two of our local boys were entered in the 147 lb. class. Reg Siddons outpointed Walling, of Red Deer.

In the 160 lb. class, Frank Siddons outpointed Chert, of Lacombe.

The Alix boys may go to Cardston to meet the winners of Southern Alberta.

Special mention must be made of the good work done by John Whitham, of Alix, in training the boys for this contest. He has given a lot of time and the benefit of his experience in perfecting them in boxing skill and credit is due to him for his good work.

CORRESPONDENCE

Editor Free Press—He the correspondence of one who signs himself "Van Poot" (or was it "Bank Bush"), I believe said letter was devoted to myself. I may say I receive many letters from religious fanatics, mostly nameless. A letter of abuse is neither here nor there. What really counts in this world of materialism are the accusations of life, or that which purchases them. I am really pleased to know that I have not under the skin of probably one or (about) one way (I) to heaven or hell (!) converts who suddenly believe that one should stay with spiritual hypocrisies who have repudiated the principles of Social Credit for the purpose of setting on the old chiding program prevalent in the past. I am proud of the fact that I can and do stand by the principles of the market, viz, the producers of material wealth and the necessary aids, and not blind income devotion to a sin god. Perhaps I was more fortunate in that I received my name through well-deserved, therefore I am not so ashamed to sign my name. Those who have been brought into the world by an indocination, or those who have a doubtful past, need be ashamed to sign their names. Certainly our (What is it?) is not to be treated in economic, cause and effect, but interested in personalities I have neither time nor money to waste on even nameless unfavorites and would appreciate it if them "ban" for those who—Arthur Tansman.

PRODUCE TAX MAY BE EXTENDED

Vernon—Producers of Alberta government's proposed seven per cent agricultural produce tax may be extended to include "all kinds of beans," was suggested by Hon. W. A. Fallow, minister of public works, in an address Wednesday to the Vernon board of trade.

The minute stressed that the present seven per cent will not become effective until the act is passed. By that time, he said, amendments may make the original measure "unworkable" because of changes in the law. He suggested that the government should consider the tax in its entirety, but he said that the production tax is not proposed to be an additional tax but would replace taxes now collected by municipal districts in other ways.

Former mayor of Vernon, Mr. Fallow warned his audience against dropping of the municipality-owned electric light and power plant, as has been proposed. W. P. Firth, board president, concluded.

GENERAL NEWS

To those who are complaining about lost wages, we recommend a trip to China and India in the Chinese army there in their wage scale. He is a month's leave officer, and a month's leave officer, and a month's leave officer, and a month's leave officer.

By a unanimous vote to go against the Government in the Old Country, Mr. candidate in Lifford was the vote by a majority of 800.

The Ingle Co. of Toronto, have secured an \$800,000 contract to manufacture machine guns for the Imperial Government. Airplane factories will also be started in Canada. The British Government is urgently in need of more airplanes.

In a debate in the Commons recently, Deakin, member of the House of Commons, said that the tariff would strike Canada if the tariff was lowered on farm implements. Since then has settled on thousands of farmers in Canada owing to the production given to implement makers. If our Canadian machinery was sold in Alberta for the same price it is disposed of in Australia there would be no kick, but Australia says this same implements at 30 per cent less than the same machinery is sold in the West.

A steadily growing use of new Willys cars is being reported from across in the Southern portion of the United States where "main board" roads and lanes are being driven. The "spring back" of this new Willys makes it an especially easy car to drive over old roads according to owners.

DROUTH IN EUROPE

A number of European countries have been subjected to severe drouth this spring and a considerable damage has been done to farm crops. In Northern Italy the drouth is a virtual famine. France and Britain have also been complaining of dry weather.

This spring has been the driest in 100 years in Britain. When April showers were due the wind turned to a bright north-easter and showers were accompanied by sharp night frosts that killed the early fruit blossoms as that of English fruit orchards are now having a crop of the greatest year. The month-long drouth has prevented farmers from planting their usual crops. For twenty days in London there was no measurable rain. Farmers' rain were offered up to the gods.

PRACTICAL SUPPORT FOR MILITIA URGED

Vancouver, May 7.—Brigadier J. O. Stewart told the annual meeting of the Vancouver Militia Institute here Friday night the time had passed when a citizen "can give his service in support of the militia" but he must be provided in his support.

Brigadier Stewart said he felt it necessary to call attention to "our position on this point" and added, "We must be prepared to help ourselves."

Australia is the largest producer of butter in the British Empire, and about fourth among the best producing countries of the world. As an exporter of butter, Australia ranks third in the world list, being exceeded only by New Zealand and Denmark. The struggle between these three countries is not great, and they supply Great Britain, the largest butter importer in the world, with 85.3 per cent of her total butter imports which represent 50 per cent of the total butter imports needed by importing countries.

Many of the current buyers of Willys cars have never owned a new car before, according to an investigation recently made by Willys-Overland Motors, Inc. In some sections of the country, the percentage runs as high as 75 per cent of all Willys owners, who state that their car is the first new one they have ever bought.

Willys cars are now being distributed in 55 countries outside of the United States and are finding unusual popularity in South Africa, where there are long stretches of dry, dusty roads, with great heat, the Willys is making enviable records for performance and economy.

COMMUNICATION ABERNATHY BETRAYAL

The Abernathy Government case
more have held their hands and, as
before, we find ourselves legislating
in the face of the Abernathy in the
dismal. One man within by this
time that Premier Abernathy is not
and never was interested in Social
Credit when the shipping stone to
a recent Avernath's death. For
himself and those friends. We must
at least give him credit for extra-
ordinary character. Although when
he utilized the economic crisis pre-
ceding of that time to produce
economic security, to improve on the
possibility of an impoverished people
who have been led to believe they
were on their way to the promised
land by a chosen apostle of the
Lord. The man who has been an
Judge in modern times as well as
Biblical days. The restoration of
our government, a year ago, proved
the vacillating nature of their leader.
In the recent government session, the
farming class, as usual, were con-
sidered only in terms of statistics or
guilt by a Government which can
think and behave for their need
tickets. Civil servants, such organ-
izations, school teachers and the
subscribers themselves, not including
Outback Ministries, are considered in
the will and intention of Abernathy
and Dr. How what about the great?
They are asked to consider a pro-
duction tax on their own produce for
the purpose of absorbing municipal,
school, toll, etc. Surely the Premier
does not believe the farmers won't
see through his absolute subterfuge
to bankrupts of the province. The
people who produce the necessities of
life for all citizens, surely he must
realize this class is paramount to all
others in the production of necessary
physical wealth and they should at
least receive the same consideration
given to civil servants and members
of the government, also different
classes of labor. Does he think that
the farmers are to dumb or to busy
working 12 to 14 hours a day to see
that he wishes them to absorb this
production tax from their own pro-
ducts. Why did not the government
tax the civil servants and they alone
for the increased gratuity Mr.
Premier, the above is one question
your constitutional representative
will find hard to answer. Increased
gratuities for civil servants, and
M.L.A. also school teachers, con-
sidered at the expense of the public
in general we all contribute to those
as called reforms, but when the
farmer, who is the backbone of this
province, demands consideration he
is offered a tax on his own produce.
In other words he must take from
our pocket to put in the others
should be have anything in said
pocket. Does our Provincial Dis-
tricts really realize the farmers are
so dumb or not to see the double con-
sideration he wishes to put over Labor
organizations and the different classes
who have and hope to benefit at the
expense of the public in general will
put the farmers on the back and
drive them to a deadly end. The
government has furnished for their
benefit. But give them a dose

of the same medicine when they ask
for an increase in salaries. remem-
ber a tax on their own class only
and we what happens. Our members
of government would consider we
were already should we demand a tax
on those a only for their increased
gratuities. Mr. Farmer you are in the
same position with a tax on your
own production as you were teachers
before and teachers after. It is a
scheme to get you to absorb their
problem of h-u, drought and other
vicissitudes by which you are afflicted.
We farmers must continue to digress
of Abernathy. Why not truly.

Wednesday.

Mr. E. Bellish, of the Alix Road,
has been making further improve-
ments in his house. After installing a
hot and cold water system, with
bath and toilet, he has turned his
attention to the basement. It is
now equipped with a large brick &
c. plan, the other a bathroom has been
done over, giving the room a bright
appearance. He has installed a toilet
room off the bar. The whole run of
the basement has been stemmed.
Good work, Mr. Bellish.

OLD LINE PARTIES MUST GO

Abernathy is reported to have said
in Saskatchewan, on Monday, that
"the old line parties have got to go."
It is true enough. They will have to
go, and with changing or not they
go, but the change will not be
brought about under Social Credit
principles.

SENATOR MURDOCK CAUSTIC IN INQUIRY INTO RAILWAY PROGRAM

Ottawa, June 2.—Langtry analysis of Canadian Pacific railway statistics engaged the senate railway committee throughout its two sessions Wednesday, with members immersed in masses of figures. All were determined to show that under valued management Canada's two transportation systems would save more than \$20,000,000 a year.

Senator James Murdock (Lib. Ont.) derided the statement of Sir Edward W. Beatty, C.P.R. president, to the effect railway labor would not be discriminated by collection.

"I'm too old to swallow any such statement," exclaimed Senator Murdock warmly, when Senator John T. Hays (Cons. Winnipeg) reminded him of it. "and I don't care a damn where it came from."

He asked Senator Hays not to give him "any lecture" about employees, whose interests lay in looking out for their shareholders, "protecting the rights of the workers."

ALBERTA CREAM SUPPLIES

During the month of April, Alberta creamers reported receipt of 1,088,184 pounds of butter fat on an average of nearly 60 per cent over the same period last year. Receipts for the first four months of this year showed Alberta cream receipts to be 4,587,768 as compared with 4,670,470 for the same period in 1937. Sixty sections of the province helped to make this increase, but it was chiefly marked in northern sections.

BRIEF DISPATCHES

AGAINST COMPELSION

Mr. Gardiner speaking at Lacombe, Sask., said he believed farmers as a body were opposed to compulsory marketing of wheat. Under last year's setup there was nothing to prevent any grain marketing organization from operating a wheat pool, if they so desired, he said, because with the price pegged at \$11 cents such organizations could have paid an initial price of 50 cents and been guaranteed against loss by pegged price.

Calgary, June 8.—Probably within 10 years all first class mail in Canada will be transported by air. It was forecast at the annual convention of the Alberta branch of the Postmaster's Association of Canada, here Wednesday.

Ottawa, June 8.—Hon. T.A. Crerar, minister of resources, last night announced tentative allocations of the \$1,000,000 vote included in the supplementary estimates to assist the provinces in improving transportation into mining areas. Of this amount \$500,000 will be spent in Alberta.

A welcome note visited Alix on Wednesday night.

Political War News

Radio dispatches from the "front," on Wednesday evening, indicate that the list of Social Credit casualties in the Saskatchewan election is long and heavy. Only one escaped the bombing. Of the C.C.F. battery four survived. The Tory battleship sank without trace.

The Liberals have scored a wonderful victory; their crowing could be heard all the way from Calgary and Edmonton on Wednesday night. It is quite evident, from the news we have at hand, that some of our worst-kept secrets are slipping.

Alix Celebrates

When the news came of the victory of the Liberals over all competitors, and the routing of Social Creditism, in the Saskatchewan elections on Wednesday, the town broke out in a rash. A band was started on Main street. Mrs. Bob Whitfield harpaged Joe Johnson's suit, filled up all possible corners with pillows and shook hands with all and sundry. Merriment broke loose and joy was everywhere, and a good time was had by all, excepting the apostles of S. C.

BASISBALL TOURNAMENT

A baseball tournament will be held in Alix on Wednesday, June 22nd, at the Alix Fair grounds. Alix, Delburne, Brinkley and Shetler teams are entered. Games will start at 1 p.m. Admission, 50c. School pupils, 25c. In the evening a dance will be held in Fairy Grounds hall. Made by Bob's 4-piece orchestra. Admission to dance 50c per person. Refreshments on grounds. Come out and have a good time and give the boys your support.

REPLAINED

While on a visit to Murphy Marshall Park was a guest at a dinner party when one of the other guests took exception to French politeness. "There is nothing in it not wind," he said, with questionable logic.

"Neither is there anything but wind in a pneumatic tire," retorted the gallant marshal, "yet it takes the job along 300's highway wonderfully."

ALBERTA CROP REPORT

Edmonton, May 21.—Very favorable crop conditions are contained in the crop report issued from the Alberta Department of Agriculture for the period ending May 21st, by the Honorable D. B. Kelton, Minister of Agriculture. The greater part of the report is on the excellent moisture to carry the crop along for some time. There has been a lack of the usual moisture in the districts north and west of Edmonton. The Peace River country is particularly dry for this time of the season. The weather has been warm, promoting an even germination and a rapid growth of all grain crops. Wheat seedling is practically completed except in districts where farmers are delaying seeding owing to uncertain seasons. Oats grain seedling is delayed by some farmers who are seeking an effort to destroy a growth of wild oats and other weeds before seeding these crops.

Division No. 2—(Lacombe, Red Deer, Beatty)—Moisture still adequate crop growth fast and strong; fields becoming covered and clean of weeds, no soil drifting. Wheat seeding about completed under almost ideal conditions; most grain sown to four inches high; late seedlings about up to barley now seedling; fall rye commencing to head out. Pasture and forage crop excellent. Growth six inches high on new stands; no damage to crops from insects. Weather hot but this is not serious since soil is well filled with moisture.

"Your boy Jack says he's going to turn to coal employment."

"Yep," answered Farmer Corstaden, "I don't blame him. Everyone feels considerably like getting away on 'leeches' for two week 'til a 'stag' where he knows it'll be easier for him regular."

UNITY COUNCIL MEETS IN CALGARY ON JUNE 16-17

Calgary, June 16.—Preston, in chief of the Alberta Unity Council will be held in Edmonton June 16-17. John J. McFarland, chairman, announced here Friday.

The 26 members of the council, representing agriculture and industry from the Peace River country in the north to the United States boundary on the south, will attend.

The two-day conference will chart a definite course of action and policies for the Unity movement. Mr. McFarland said.

HEART REBORN FOR INFLUENCE IN TERRORISM

Jordan.—The violent drug habits apparently is playing a large part in keeping Arab terrorism focused to fever pitch.

Nearly all terrorists captured by the police and troops have been found to be under the influence of the drug, whose influence seeping into the country has prevented authorities with a problem almost as serious as the Arab-Jew disturbances.

Men of the East have made headlines for centuries. The word "terrorist" is derived from its name. And today, according to authorities, the Arab bands swallow huge doses before they go out to ambush and kill in the hills around Jerusalem.

According to the Arab press in the Arab city of Jaffa about 10,000 British soldiers are known to be the police out of a population of 60,000.

OVERPAID

Two Englishmen were visiting the field of Ban-ekura, associated with the defeat of Edward's army.

A native came up and pointed out the position of the battle arena. Slightly pleased with his attention the gentlemen, all having him urged him to accept a name.

"No, no," said the native, "keep your money. The English have paid dearly enough already for using the field of Ban-ekura."

LOOKING AHEAD

A mother noticed that her little daughter was biting her nails under the edge of her plate.

"Dorothy," she said, severely, "you may live to want these nails."

"I know, Mommy," replied the child. "That's why I'm saving them."

CHRISTIAN SCIENCE

At the Christian Science Convention Sunday, the address of the Lomon-Sherman will be "In the Universe, including Man, Directed by Cosmic Power." One of the Scripture quotations in the Lomon-Sherman is Psalm 149, "Let Israel rejoice in him that made him; let the children of Zion be joyful in their King." One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is "The scientific fact that man and the universe are created from Spirit, and in one spirit, is so fixed in divine Science as to prove that mortal gain the cause of health only as they lose the cause of sin and disease" (p. 66).

DIRECTION REPORT

"How important than all, however, is the sacred cause with which the healing ministry of Christian Science is being practiced throughout the world. It also indicates that the day is approaching when responsible heads of governments will say that under various signs, material means and methods to accomplish their ends inevitably result in failure and defeat. They will then realize that no act is so stronger than the moral fiber of its people, and that a nation can become truly great and permanently endure only in the extent that spiritual qualities are cultivated in the thoughts of its citizens and permitted freely to operate in the government of their lives."

A British thought-out walking down one of New York's busy thoroughfares was stopped by a few American novel writers. They gathered round him with the remark: "Are you a British thought-out?"

"Yes, I am," said Smith.

The National Safety Council of the U.S. announces that in 1937 accidents claimed 10,000 lives, more than twice the number killed in the Great War. Injured numbered 3,500,000. The cost of motor car accidents alone ran to \$1,500,000,000.

COMMUNICATIONS

Editor Free Press—In the Saskatchewan S.C. News, it certainly reminds me of the South Sea coast catastrophe. Of course there were not as many sailors for Alhambra as he desired. He and his Government should realize that their men are running out on the land. There is one point I would like to emphasize, that the Liberal Government had run away with the idea that the next election is the big. There never was a time when Unity was more secure by then today. Unity will be more secure by then today. The propaganda issued by the S.C. Government. Fantastic promises will be given to the people of Alberta which will be called down on the shoulders, and great pain will be caused for the land, within Alhambra's fold. There will be hard to combat; no one party can hope to survive the difficulties which will be brought forward, isolated or otherwise. We must unite as one, concentrating on the country, because the farming communities are the ones who are the backbone of organized labor. Every one must reform in order to be at the top of Agriculture. A progressive farming community automatically brings into force a prosperous business class, which naturally enhances the position of our industrial workers. Good economic progress is necessary, not as a social progress, which the B.I. Government seems to have accepted to the detriment of the largest producers of material wealth in the province. Yes, Social Credit is demanded if we unite our forces to meet them on an equal footing party against party. Study the propaganda on Unity. It is necessary if we wish to dispose of Alhambra's "Yes" men. The reputation of our so-called B.I. philosophy in Saskatchewan should be educational to the people of Alberta.

CHRISTIAN SCIENCE

As Christ Jesus Christendom and Sunday, the subject of the Laramie-Sutton was "God". One of the Fundamental questions contained in the Laramie-Sutton is John 4:24, "God is a spirit; and they that worship him must worship him in spirit and in truth." One of the correlative passages, from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is "Spirit, Life, Truth, Love, combine as one, and are the spiritual essence for God. All substance, intelligence, wisdom, truth, immortality, and other objects belong to God. These are His attributes, the eternal manifestations of the infinite Divine Principle, Love" (p. 228).

The New York Herald-Tribune, discussing Canada's budget, ends up by saying: "The suggestion was made in the financial district that one of our Washington administration might well go to school at Ottawa for a while."

THIS AND THAT

The Alberta Kennelmen are holding their annual camp meeting at Red Deer this year.

The report is spread that some help from Admiral Nelson's boat was sold recently for \$25.00. After picking the old one dog in a barrel of whiskey for some days the wonder is that there was any left to sell.

The Britons are rehearsing to see how quickly they can locate a Jack Rabbit in getting under cover. Straws will reveal "take cover" and the public is expected to be out of sight in 10 minutes under bomb-proof shelters. The ladies will be late, as usual, as they will be delayed by the necessity of stopping to provide their coats and see if their complexion is on straight. Not even a bomb could make them forget that day.

One way to keep your friends is not to give them away.

In Alberta the precipitation is somewhat below normal. The percentage of normal has been reduced by rather scant precipitation during the past three weeks. Moisture is still very deficient in the northern part of the province including the Peace River area, and only fair in most of the eastern sections.

LOGAL AND OTHER ITEMS OF GENERAL INTEREST

At least one of our local merchants is after and about enough to go after some of the mail order business money that is leaving our district. Mrs. T. Sample is spending a week in the United States.

Mr. and Mrs. F. Wilson left on Friday last week for Vancouver and other points east.

Mr. F. Page and daughter and son left last week for Vancouver and other points east.

Some of the best of the heavy rains that have been falling during the past week, that this year will give them a good yield, the last season. But the heavy rains and the heavy rains have had good effect, particularly the latter.

We hope it will not be long till our other previous season back to the position of the former which gratifying season of the Dominion.

Mr. and Mrs. F. Wilson, who were advertising a sale in their window and a grinder in the Free Press, are now going to advertise. They report that the response was prompt. As many as four people a day came to inspect the article advertised. They sold \$10 worth of stuff at a cost of 10c.

They have been very busy and satisfactory living around them. They are a cheaper medium for advertising than their weekly paper.

It is reported that our local people have bought the recent lot sent to the new office. We think it is about time that we are making an investment of this kind, but we can't believe that we have bought this lot to our profit. We must have more of a building in mind, say a savings for two.

The council is giving a much needed service by giving a vacant lot to the north of the Alix Road in the Occurrence. They think they want from the council is more light. The people on the north side of the C.P.R. tracks are justly complaining. They have no end streets or lights of any kind, yet they are asked to support the village. The north side is a beautiful spot for building. Having Lake street, we think that district is the prettiest part of Alix, and is deserving of more attention.

The Free Methodist Church camp meeting opened in Alix on Tuesday, with the music of the church. We were informed that two times, from Kamloops, B.C. came in to the village to attend the conference. With the present state of the camp that week, more could have been held. There's looking the congregation will be reduced. They were for it.

Our committee meeting is being held in Japan in the summer and is now being held in the summer.

How Does Life Insurance Benefit The Farmer's Wife and Children?

Answer.—If the farmer has Life Insurance, the wife and children know that they will not be in want in case of his death.

Question.—How would insurance help?

Answer.—It would provide money for living expenses, to pay debts, meet mortgage payments, hire help, rapid sale of the farm as a sacrifice.

Q.—Couldn't this be done through ordinary savings?

A.—Usually a farmer leaves only a small amount of cash. Nor can he be sure to live long enough to save an adequate sum. Only through Life Insurance can he, with a minimum of saving each year, have the necessary money available in case of death.

Q.—How do the children benefit?

A.—The father who has Life Insurance is sure that the children will have the home, care and education that he intended.

Q.—How does Life Insurance benefit the farmer himself?

—If he lives to a retiring age, his insurance will provide a cash income to care for him.

The Townsend plan is by no means new in the United States. The politicians are busy showing their candidates for the coming year the merits of Hain's model most noteworthy feature is that the successful gubernatorial nominees, and the three legislative and three Republican economic nominees, all endorsed the Townsend plan. That gives our economic nominees a strong endorsement. The \$25 per month dividend looks all alongside Townsend's (\$20) a

political thought. The Council has
been able to bring together a
work of organizing the very large
scale of public opinion all over the
country which has shown itself
in the form of moving political public
opinion taken at the next election.
It is naturally the hope of the

 reaching these different conclusions.
 That, united action and the sur-

 vital differences is the only means
 overcoming the present condition
 affairs. When that constituency
 domination takes place, the people,
 if they choose the right repre-
 sentative to a central Council and
 Provisional Council will pass out
 the picture.

CHRISTIAN SCIENCE

At last Christian Science Churches start Sunday, the subject of the Lesson-Service will be "Parricide." One of the scriptural quotations in the Lesson-Service is I Corinthians 12:13, "For by one Spirit we are all baptized into one body, whether we be Jews or Gentiles, whether we be bond or free; and have been all made to drink into one Spirit." One of the operative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, in "Inspiration." Paraphrasing by Spirit, subconsciousness in Spirit" (p. 281).

The Federal House protracted on Friday, July 1st without setting any fixed price for wheat. The Government, however, has promised that the price will be fixed and an announcement made later. The price may be the same as last year (\$7.50). Some members asked for \$8 and the C.G.P. demanded \$1.50. In view of the large probable yield, both in Canada and the United States, we are of the opinion that the farmers will be lucky to get \$7.50 this year.

WARNS WHITE MAN

MUST HOLD NORTH

Ottawa, June 25—Canada must develop and utilize its north and to hold it for the white man, W. D. Albright, superintendent of the Dominion experimental farm sub-station, Beaverbridge, Alta., warned the American Association for the Advancement of Science in annual convention here Wednesday.

Like Russia, Canada must look to the north and the United States will follow its progress with satisfaction, he said.

"For a particular reason of our own very proper concern, the United States must be interested in the dominion's conquest of the north."

"Is the modern surge of radical expansion, to the mad quest for economic self-sufficiency, in the race of armaments and in the unscrupulous scramble for a 'piece in the sun' which some often, to meet territorial expansion, is it to be supposed that the northern third of this continent cannot be held by the white man unless developed and settled by him.

HAYNES NEWS

Mrs. J. Daily has been called to Nova Scotia owing to the serious illness of her mother.

The Ladies Aid plans to stage the play "Aunt Summertime" at the school on July 15 in the Community Hall.

Two successful showers were recently held for local brides-to-be, namely Miss Ruth Bouchard and Miss Katherine Gray who were presented with many useful and handsome gifts.

Haynes has been among one of the driest spots lately so the recent rain caused much rejoicing here.

Planks have been the order of the day so we really know school is over and holidays have begun.

MIRROR NEWS

Mrs. Wm. Smith and daughter, at present, are visiting at the home of Mrs. F. H. MacLean.

Mr. and Mrs. Paul Elworthy, of Fishburn, Sask., are visiting at the home of Mr. and Mrs. J. Maylor.

It is rumored that we had three inches of rainfall over the weekend. Crops are luxuriant and roads are impassable.

Mrs. W. and D. Ross, of Winsty, are visiting at the home of their son, Mrs. J. MacLean.

The following teachers, D. Alton, E. Ogden, J. McDougal, F. Brennan and H. Winsty are attending summer school at Edmonton and Calgary.

Mrs. June Ogden, Almyth MacLean and Frances Smithers, pupils of Esther Ditcher, were successful in the Toronto Conservatory Music Exam.

Mrs. H. Jaques left on June 25th for Gull Lake where she will take up residence in "The Outlook" for the summer. She was accompanied by Miss Betty Jaques, Miss Maureen Jaques and Miss Frances Smithers.

Miss Doris Veinland attended a High School party at Camrose, Thursday evening.

A successful High School party was held in Grand Theatre on Thursday, June 25th, by the Mirror High School to mark the close of the term. Guests were present from all, Beaver and Parkdale. The evening was spent in a short program, games and dancing.

Rev. and Mrs. L. A. Thompson and family have arrived from Fairview and will take up residence in the United Church parsonage.

The regular meeting of the Alix Women's Institute will be held at the home of Mr. Whitfield on Thursday, Aug. 2nd, at 3 p.m. Visitors

Parsons in this district should have their names forwarded against a vote there that has broken out in the district and a number of points in Eastern Alberta. We have been informed that there are three names in Alix and more in the Red Deer district.

The U.P.A. hall is being wired for electric light, so we would like all members and prospective members to attend the next meeting on Monday of August 30th. Come on! Let's keep the banner in Alix, and the way to do it is to have a real lively programme drawn up for next year. Let's begin now.

The Junior U.P.A. are having their annual picnic at Alix. Back next Monday, July 26th. All members are requested to come, bring their parents and friends, and a basket lunch. All those wishing a ride out to the lake place it at the U.P.A. hall at eleven a.m. sharp as transportation is being arranged for.

The Toronto Star of July 15th has a feature article on "Alberta: Hello the Old." The little town of Banff was the first to start the good work. This example was followed by Yellowknife, High River, Red Deer and Calgary. The boys here were given a name was employed to fill every out that didn't have a ball. It is claimed that every one who has been served, the men here to be called only when they are allowed outside a good amount can do so with little hindrance, but it is claimed if you go outside without a ball.

CARD OF THANKS

We would send a message of appreciation to all the dear friends and neighbors who were so freely of their sympathy, thoughtfulness and service at the time of our irreparable loss of a dear boy and father.

Conservative Leader Talks

Dr. Manion, speaking in Toronto on July 18, has come out with a few modern ideas. His remarks were heard by the style of W. D. Herdman, then the published platform of the Conservative party in connection with the Ontario Convention at Ottawa.

Manion is shrewd enough to read the difference between Cohen, of Montreal, and Herdman, of Ottawa. He knows that Herdman spoke for the younger element in the party and Cohen was speaking for the old die-hard who are on their way to the political bonfire. We have reproduced a part of Manion's speech, which will give our readers a general idea of the drift of his thought. It is a speech which will convert his ideas into action there may be some hope for the party even yet. The doctor, however, will meet with considerable opposition from the many "Cohens" in his group.

Dr. Manion said he did not know it had to say adieu was bound to decay. Well-timed reforms alone prevented revolution and the Conservative party must be reformed, he said.

The most dangerous people in the whole community are those who say that the position of this party 50 or 60 years ago are good enough for today.

Modern education and economic organization had accomplished much, he said. It had solved the problem of production, but it had not solved the problem of distribution.

"We must find a method," Dr. Manion said, "to make work and wages to our people because unless we are able to do this and to give opportunity to our youth as well it is doubtful if the system under which we live will not disappear in 20 years."

"Indeed, if we do not succeed in curing that weakness I doubt if we still remain in it worth mentioning."

On one thing the national conference was definite and positive. It was against radicalism, socialism, and communism. For himself he had made his position clear even before the conference spoke.

He had no use for socialism, but because with five years' experience as minister of railways he had to know as much about the railway problem, if not more than anyone else at the convention.

He knew that the scheme of those who advocate nationalization cannot be substantiated. 100,000,000 a year is just a joke. For from saving \$75,000,000 a year, we could not save more than \$25,000,000 at the most and a saving of \$100,000,000 or \$150,000,000 is not sufficient to justify the cost of a monopoly in railway transportation.

It is a good thing that a monopoly in railway transportation is a dangerous monopoly, because railway transportation was a monopoly in Canada. In addition, it would bring together \$100,000,000 a year, which would be a very large sum of money.

That would mean an average of 1,200 votes in every election. "If they would be able to make government and there would any government if it did not have the votes of 1,200 people wanted it is 20,000."

The following questions were asked Dr. McMillan, M.L.A., at the public meeting in the English Hotel, Alton, on Monday, July 15, 1929.

Question by Mr. Collins: Is the whole idea of the Conservative party the maintenance of wealth known to the masses and members?

Answer: "The whole idea of the Conservative party is to maintain the status quo. It is to maintain the position of the masses and members."

THE WAR NEWS

Mr. Chamberlain has at least gained a temporary respite from his war, but the fact that they are still going on with preparation is an indication that no body seriously believes that peace is a permanent fact.

Mr. Chamberlain's victory is only temporary. He is out on a limb that is likely to be cut off by any attempt he has adopted a wrong policy right from the start.

UNITY

The present agreement only means that we have been proposed, and Hitler will be stronger for the next attack than he has been for the last one.

ELECTRICITY

BENEFITS EVERYONE!

WHETHER you live in town or in the country you benefit through today's use of electricity.

The new processes and manufacturing methods which electricity has made possible are responsible for many of the articles used in your home, your business, or on your farm.

Your radio, whether battery or batteryless, is of use only because electricity makes broadcasting possible. Your weekly movie is a child of electricity too.

You can phone for a doctor, or a pound of tea, only because of electricity. That same electricity has made it possible for your local merchants to keep their merchandising methods up to the standard of city stores.

These are only a few of the many ways in which electricity benefits you, whether you live in an ALL-ELECTRIC HOME, or one that is still to be equipped with these time-saving and labor-saving devices.

THE GREATER THE USE OF ELECTRICITY,
THE GREATER THE JOY OF LIVING.

Thanksgiving Day An Ancient Ceremony

"Three times thou shalt keep a feast unto Me in the year. Thou shalt keep the feast of unleavened bread (seven days). And the feast of harvest, the first fruits of thy labours, which thou hast sown in the field; and the feast of ingathering, which is in the end of the year, when thou hast gathered in thy labours out of the field." Exodus Chapter 23, verses 14-16. This was Moses' command to appoint and proclaim the days of thanksgiving among the select Israelites. The custom of Thanksgiving is as old as recorded history.

The aboriginal inhabitants of North America, like the Israelites of old, did not confine their public thanksgiving for bounteous crops within the limits of one day. While the Israelites observed three obligatory festivals, the Indians of North America held many public ceremonies in connection with the fruits of the earth.

Besides the main thanksgiving is the late fall or early winter, there were ceremonies of gratitude for the ripening of the maple sap, the ripening of the maple sap, and for the planting and reaping of corn, culminating in the one general and grateful appeal to the Almighty. The Huron and Iroquois nations had at least six major thanksgiving ceremonies throughout the year—seven days when the corn was planted; seven days when the corn turned green; four days when the corn was harvested; the great mid-winter festival of general thanksgiving, and the earlier maple sap and the blueberry festival.

The great autumn thanksgiving festival was conducted with much ceremonial, particularly by the Iroquois. Certain selected officials were placed in charge. They invited contributions of food from the wigwags, fixed the dates of the ceremonies, and approved of the oratory to open the feast. With an appeal to the Great Spirit and a prayer of gratitude to the three star gods—Corn, Beans, and Squash. The Ojibwas celebrated their "mid-winter" in the season of the ripe maple sap. This festival was held in late fall, while the Indians in British Columbia held their great feast of thanksgiving.

WILLYS OF CANADA

PLAN TO EXPAND

PLANT FACILITIES

Wind-or, Oct. 14, Sept. 20—Plans are being studied by Willys of Canada Limited concerning assembly of Willys cars and trucks in Canada. It was announced today by E. J. Archer, vice-president. The plans for local expansion by Willys operations in Canada result from the tariff adjustments made by the Dominion Government.

"We wish to co-operate with government officials in their desires," Mr. Archer stated, "and are therefore analyzing all the facts, particularly to see if we can, through such operation reduce our price to the public. Our aim is to offer the Willys cars and trucks at the lowest possible best cost so that with their best known subsequent low upkeep, the cost per mile over the ownership of the vehicle will be well within a greater per cent of buyers' purchasing ability."

COMMUNICATION

THE WHITE CROWN

Editor Free Press-Mirror, the champion Jew-baiter of all times, has concentrated the property of all Jews to Germany and Austria. The policy of conversion and assimilation is a mere back to barbarism. Thousands for the pogrom and leave their homeland in a mad race of utter destruction.

Jews have been robbed of their citizenship, their liberties, homes and even their names. They are denied the right to live and are driven to poverty, starvation and death.

Hitler and his gang of scoundrels have committed the disgraceful \$5,000 pay-dime, who have been driven from homes and offices. These hundred and sixty millions dollars is the largest sum of the greatest example of mass robbery in the history of civilization.

The crusade against Jewry is an insanity which has spread to Sweden, Italy and Roumania. Jewish university students have become Jewish girls into invisibility.

The extermination of the Jews has been paid with a heavily armed led only in this age by the courage of Japan.

The persecution of the Jewish race is a criminal frame of the Nazi program that people and infants have been hounded about the country like herds of prey. Jews, who occupied public positions in universities, law courts, schools and hospitals are dismissed. Jews are persecuted, degraded and then expelled. They are not allowed to leave their country until they are forced.

The Jews of Germany discover a better fate, for they arrived in the Great War and served their country well and loyally. But, all is in vain. They are victims of a psychopathic tyrant who knows neither justice, truth nor honor.

Most appropriate are the words of Shakespeare—

"Hail to thee, sudden, unlooked-for, unthought-of, unimagined, unexpressed, unuttered, unspoken, unthought, unimagined, unexpressed, unuttered, unspoken."

Cause his hand of life, dear God, I pray

That I may live to say,
The dog is dead."

To Investigate
Gasoline Price

Swearing powers to investigate gasoline marketing costs and prices of fuel oil, including gasoline, in this province are vested in a royal commission just appointed by the provincial government, Hon. E. C. Manning, minister of trade and industry, announced Tuesday. It also is to recommend "fair and equitable prices" and the advantage and disadvantages to the province "in the government of the province taking over the wholesale and retail distribution of petroleum products."

Mr. Manning said that the first meeting of the commission probably would be held at Calgary, Oct. 17. This will be an organization commission and dates for regular sittings will be set at this time. J. J. Frawley, K. C., of the attorney-general's department, was in Calgary Tuesday making plans for the projected inquiry.

Mr. Justice McMillan, of Calgary, is chairman of the commission, while the other member is Major L. R. Lipsett, well known cost marketing authority, of Arley, Alta.

J. J. Frawley, K. C., of the attorney-general's department, is to act as commission counsel, while F. G. Cottle, C.A., member of the gas conservation board, has been loaned to act as accountant advisor to the commission.

CHRISTIAN BIBLES

At all Christian Science Churches next Sunday, the subject of the Lesson-Sermon will be "Doctrine of Atonement." One of the Scriptural quotations in the Lesson-Sermon is Hebrews 9:14. "Though he were a sin, yet he should be obedient by the things which he suffered; And being made perfect, he became the author of eternal salvation unto all them that obey him." One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, in "The crisis encountered by prophet, disciple, and apostle, of whom the world was not worthy," "until, in some form every pleasure of truth" (p. 10).

In Scotland the sheep there are attacking the grouse, causing a heavy mortality. As old farmer remarked: "We've had the dick on the sheep, and nothing was done about it; but when it started on the grouse o' the gentry the maiter became serious."

MERCHANTS' GROUP

SILENT ON SCHEMERS

Calgary.—Calgary retail organizations including the Retail Merchants' association and the retail bureau of the board of trade, will neither endorse nor condemn the Alberta government's interim program and credit house system.

Calgary merchants will decide on individuals whether they should identify themselves with the credit house plan, said A. C. MacKay, secretary of the Alberta Retail Merchants' association, Saturday.

"I am of the opinion it will be largely a matter for the individual to decide," he added.

"It is purely a personal responsibility," said George H. Wilkinson, chairman of the retail bureau. "We have not discussed it as a group nor has there been any request for a meeting."

THE WORLD OF WHEAT

By H. L. Strang

"These Registered and Certified seed growers want to ask a pretty high premium for their seed, isn't there some way to get it cheaper?" a friend asked in last week.

"The seed is well worth the price asked," I told him. "It takes a lot of extra expense and care to grow Registered and Certified seed, but," I said, "if you don't want to pay the seed grower for doing the extra work, why not do it yourself and save money?"

"Seed?" he asked. "Lay down a seed bill on your farm," I advised. "Omit five or ten acres of your very best summer fallow and then buy only a few bushels of the best Registered or Certified seed, and sow it on this small seed having an all-way here all around it. Protect the field, fence it, harrow, then seed and spread the grain with care, and then by next year you will have enough seed for a large acreage."

"Oh," answered my friend, that's a lot of trouble though, isn't it?" "Well," I wanted to say. "That's life all over, either we want to go into trouble ourselves to produce an extra good thing, or pay some one else to do it for us."

Here's an idea for some of our bright boys who are of an inventive turn of mind. Get out a new fountain pen and call it the "Alberta Maple Pen, Pen, Unlimited." We can sell you right now it won't work at a regular bank, but our idea is to try it on some of the newly established credit houses. If it succeeds you can pay on a commission; if you won't mind.—Exchange.

Britain And U.S. Get Strong Through To European Leaders

Joseph Kennedy, United States ambassador, says Europe's leaders are "up-to" to bring the message of Great Britain and the United States to settling their differences.

He expressed confidence that "Americanism" deserves the same principles of "good neighbor relations" abroad, "as we do at home."

The ambassador spoke at a luncheon preceding a ceremony at the Chateau de la Marais.

His reference was to settlement of British and American claims against the United States and Germany during the World War by both nations decided to use them in common.

"Fighting, whether waged over land or in waters of navigation, arises from the impotence and inability of

TOO LATE

Even at the age of 10 Elsie Barrymore was commenced with the first of ambition. Before her always was the inspiring history of her grandmother's early days in England when she was eight years old. Elsie would point out despairingly, as if at the best days of her life had passed. "Here I am, getting older every day, and I haven't done anything!"

"What about a hospital for Alia?" she asked when she should have been. Why not? We are the centre of a large district without a hospital. Laramore in the west, Brierley in the east, Vancouver north, Trochu to the south. Twenty-five miles or more in any direction, to get hospital attention. We really need one here, so why not?
